Rushville, Indiana, Friday Evening, March 21, 1919

TWELVE PAGES TODAY

AVERAGE VALUE IS REGARDED AS GOOD

Four Assessors List Some Items of
Personal Property Too Low,
County Report Shows

IT COVERS FIRST TWO WEEKS

Township Officials Will be Warned
at Conference Tomorrow to Keep
Appraisements High

With the exception of four assessors who have listed some items of personal property lower than they should be, the general average of the valuation placed on this class of property during the first two weeks of the assessing period is regarded as meeting the requirements of the new state tax law, according to the report which Earl Priest, county assessor, has just submitted to the state tax commissioners.

Although Mr. Priest has made no general canvass of the real estate valuations, because no report has been requested on this phase of the work, he says that in the townships where the assessors have reported to him, real estate and improvements will average about \$150 an acre.

If the county maintains this average on real estate, the assessed valuation will be three times as high as four years ago when the average by townships ranged from \$40 to \$50 an acre. It is not believed any reassessment or raised valuations would be in order from the state tax commissioners if Rush county real estate and improvements averages \$150 an acre.

The assessors find that the majority of taxpayers so far solicited approve the new tax law. Most of the disapproval of the law is due to a misunderstanding of its provisions. Assessors report that most people believe that the statute will more nearly distribute the taxation burdens than the old method of valuing property.

The assessors have met with little difficulty because of the agitation started a few days ago by an Indianapolis attorney who said that the new tax law was not legal for this year's assessment because it was not effective until March 12, when signed by the governor. His contention was that it should have been a law March 1, the date when the appraisalment of property starts in order to be effective. The assessors here, however, are going ahead with their work on advice of the state tax board, and it is understood that the attorney general, when the question is formally submitted to him, will hold that the appraisalment of property under the new law is legal.

When the township assessors hold their conference here tomorrow, they will be warned by the county assessor to keep up their appraisalment values. The assessors who have taken some items of personal property too low, will be urged to bring their appraisements up to the average because if they do not, the state board may order a reassessment or increase the valuation equally for the whole township.

From the following it will be seen that the county average for personal property is good:

Appraisalment of tools owned by 317 farmers, taken from 19 assessors' sheets, average \$161.22 for each taxpayer. The average for the household goods of 580 taxpayers assessed by 23 assessors, was \$122.19. A total of 1,683 cattle listed by 21 assessors averaged \$62.25 a head. Twenty assessors appraised 9,834 hogs at an average

RE-ELECT OLD OFFICERS.

The Building and Loan Association No. 10 re-elected all of its former officers last night in a called meeting for the election of new officers for this year. The association also celebrated its thirtieth anniversary at that time.

REPRESENTED IN CHICAGO

Rush County Liberty Loan Workers
Attend Conference Today

Rush county was represented today at the Liberty loan conference of the seventh federal reserve district at Chicago, by four members of the county organization. Earl H. Payne, county chairman, and Judge Will M. Sparks and T. M. Green, Rushville township and county directors of sales, went to Chicago last night to be present for the conference. Theodore L. Heeb, secretary of the county loan committee, went to Chicago Wednesday night and expected to attend today. Carter Glass, secretary of the treasury is to speak at a banquet tonight at 6:30.

AUTO SHOW DRAWS TO A CLOSE TODAY

Last Event in Connection With First
Exhibit Ever Attempted Here
Will be Dance Tonight

AN UNQUALIFIED SUCCESS

The first automobile show ever attempted by Rushville dealers ended this afternoon and was pronounced by them to be an unqualified success. The closing event in connection with the show will be a dance in the Modern Appliance building tonight, when the automobile will be removed and the floor prepared for dancing. The five-piece jazz orchestra from Franklin which has been playing during the show, will provide music for the dance.

The building was crowded with people all yesterday afternoon and last night until after nine o'clock, and the attendance this afternoon was expected to be greater than yesterday, with the continuance of favorable weather.

All of the dealers are immensely pleased with the show and say that many people have been interested in automobiles because of the display having been held.

A mistake was made yesterday in enumerating the cars exhibited by Joe Clark. His display consists of a Hummobile five passenger touring and three passenger closed car, a Franklin sedan and five passenger touring, and a Dodge five passenger touring and runabout.

FEE FOR RECORDING DISCHARGES LEGAL

Bill Allowing Soldiers This Privilege
Fails to Pass in Last Session
of Legislature

LAW MAKES IT COMPULSORY

A bill introduced in the last legislature providing that soldiers discharges could be recorded free, did not become a law, it has been learned here, and the regular fee of fifty cents will be charged for recording such papers. It was announced from the office of the secretary of state that the discharges would be recorded free of charge, but the county recorder here received no word to that effect and continued to charge a fee of fifty cents for recording the discharges.

There has been much controversy as to the manner in which the recording should have been done but since the bill failed to become a law, it is compulsory for the recorder to charge a fee of fifty cents for recording the soldiers papers. It has been announced that Adjutant General Smith has issued a statement to the effect that it is not necessary for the soldiers to record their discharges in their respective counties, as all are recorded in the War department at Washington, D. C.

MOTOR PLANT IS PLAN FOR MUNCIE

General Motors Corporation of Detroit Buys Interstate Plant
and 40 Acres Adjoining

ADDITION TO BE ERECTED

Expected to be one of Largest Automobile and Automobile Parts
Concerns in America

(By United Press.)

Muncie, Ind., Mar. 21.—Official announcement was made here today that the General Motors corporation of Detroit had bought the Interstate automobile plant here and also 40 acres of ground adjoining, on which an addition will be erected to make out of the largest automobile and automobile parts concerns in the United States.

The deal for the Interstate plant and the proposed new factory was directed by Thomas W. Warner, owner of the T. W. Warner Auto Parts Company here, and of a similar concern in Toledo. Mr. Warner is also one of the stockholders and an officer of the General Motors Company. He formerly lived in this city, where he founded the Warner Gear Company.

Negotiations for the purchase have been conducted for several weeks and were completed last night when the United States government arranged payment of a large sum of money, said to be about \$2,000,000, which it owed the Interstate Company on war orders. It was supposed that the T. W. Warner plant would be a part of the new deal, but an authorized statement of the General Motors Company merely says that this factory will co-operate with the General Motors, but says nothing about having been bought.

The company refused to say in its statement as to whether it will manufacture tractors, trucks, pleasure cars or automobile parts in its Muncie plant. The General Motors Company is a parent corporation to the Buick, Cadillac, Oakland, Olds, Scripps-Booth, Chevrolet, General Motors Truck, Chevrolet of Canada, Warner of Toledo, Remy Electric, Hyatt Roller Bearing, New Department Manufacturing, Harrison Radiator and several other smaller companies.

D. O. Skilleen, secretary and treasurer of the T. W. Warner Company, who was authorized to make public the statement of the conclusion of the deal, said that when the proposed new factory is in operation he believes it will increase the city's population not less than 25,000. In anticipation of the deal going through real estate agents and speculators have for several weeks been obtaining options on tracts of land, business blocks, dwellings and ground near the site of the proposed factory.

The statement made today makes no mention as to the amount of consideration given for the Interstate plant, but says that its factories will be used as a nucleus for the greater plant. Ball Brothers, the Muncie fruit jar manufacturers, are said to have been heavy stockholders in the Inter-State company.

FOUND DEAD UNDER AUTO.

Indianapolis, Ind., Mar. 21.—Arnold Wiggins, 1136 North LaSalle street, was found dead today under an automobile truck at the W. J. Holliday & Co. garage, 317 West Chesapeake street, where he was employed at night. Death is believed to have resulted from an attack of heart disease.

FORCED TO EVACUATE

(By United Press.)

Helsingfors, Mar. 21.—The Bolsheviks have been forced to evacuate two important cities, abandoning great quantities of munition, a newspaper declared today.

HUNS MAY REFUSE TO ACCEPT TERMS

British are Considering This Possibility and Preparing for Any Eventualities.

COLONEL HOUSE IS QUOTED

Says Peace Treaty, Including League of Nations Clause, Will be Ready by March 29.

(By United Press.)

London, Mar. 21.—The Paris correspondent of a news agency today quoted Col. House as follows: "The peace treaty, including the league of nations clauses, will be ready March 29. The Germans should be in Versailles within three weeks."

Copenhagen, Mar. 21.—The German national assembly has voted in favor of incorporating German-Austria in Germany, it was announced in a Weimar dispatch today.

The reported action of the assembly has created a serious situation as dispatches from Paris agreed the allies are opposed to the proposed union.

London, Mar. 21.—The storm of indignation from the Italian, and French press at the suggestion of the British admiralty that interned German war ships should be sunk, is not disturbing the British. If the Italians and French will not agree to the proposal Great Britain is willing to divide the ships but will sink her portion. Utilization of the ships has been discussed by the British but is considered impracticable.

Paris, Mar. 21.—British officials are considering the possibility that Germany may refuse to accept the terms of the preliminary treaty, it was learned from reliable sources today. They believe there is real danger that the enemy will throw up their hands and say, "Do what you like."

The American delegates have received their first report from William Bullitt, who left for Russia several days ago to investigate conditions under the Bolshevik regime. He is enroute to Paris and is expected to be able to throw considerable light on the situation, which will be considered as soon as the preliminary peace with Germany is disposed.

Paris, Mar. 21.—Recommendation by the neutrals were believed today to have greatly clarified the league of nations situation, increasing the possibility of reaching a complete agreement on the revised covenant by tomorrow.

The most important suggestion made at yesterday's conference with the neutrals report was that of a Swiss delegate, who submitted a memorandum that is expected to eliminate objections in certain American quarters to non-inclusion of the Monroe Doctrine.

The Swiss urged continued recognition of the declaration of 1815, whereby the great powers proclaim the neutrality and inviolability of Switzerland from foreign influence, in the general interest of the politics of the whole of Europe.

Ending over a month's deadlock, the commission on labor legislation has agreed on the machinery for an international labor bureau under the league of nations.

A compromise was reached late yesterday, adjusting the difference between the United States and Japan. Legislation initiated by the bureau will be submitted to the various governments from individual acceptance.

U-BOATS TO BE DELIVERED

Basel, Mar. 21.—Ten German submarines, which are to be delivered to the entente powers, have left Hamburg, according to a dispatch received here.

REVOLT IS REAWAKENING

Socialist Leaders Are Arrested in
Neighborhood of Munich.

(By United Press.)

Zurich, Mar. 21.—The revolutionary movement is reawakening in the neighborhood of Munich, dispatches from Bavarian socialists reported today. Many independent socialist leaders and revolutionary soldiers have been arrested.

Paris, Mar. 21.—The German authorities here reported today to have handed General Dupont, of the French army a memorandum in which they refuse to allow Polish troops to land at Danzig enroute home. A French newspaper, discussing this action by the army, declares it is a violation of the armistice.

EACH MEMBER OWNER OF A DOG, IS REPORT

Some Families Claim That Tax
Should Not be so High as
Each Owns Canine

SCHEME CAN NOT BE WORKED

Some of the tax assessors in this county report attempts at sharp practice at homes where they find more than one dog that is subject to taxation. The new law requires that where more than one dog is found at a home, the additional ones must be assessed at five dollars each. In a desperate effort to defeat this law some of the taxpayers claim that each member of the family owns one dog found in the home, providing of course, that there are as many members of the family as there are dogs and vice versa, and some of the assessors report that some of the owners of the dogs are only a few days old.

This practice is not permitted, however, under the new law, which provides that all dogs found in the home must be assessed against the householder. The assessors records of this county show that as many as seven dogs have been assessed in one home and if there are any such found this year the owners will find that their herds of canines are mighty expensive luxuries. Taxes must be paid on dogs at the rate of \$3 for the first one, male or spayed, and five dollars each for all over one, \$5 for all females. Dog taxes unpaid the first of May will subject the owners to prosecution.

COMMITTEE ON WAR INVESTIGATION NEED

Rep. Kahn, Who is in France Inquiring
Into European Military
Systems, Makes Statement.

INVESTIGATE WAR STORIES

(By United Press.)

Paris, Mar. 21.—"I think we should have a committee on general investigation of the war," Congressman Kahn, chairman of the house military committee, said today.

Kahn came to Europe to investigate the military system of France, Great Britain, Switzerland and Belgium. He will also confer with General Pershing. He said he intends to investigate the report that American soldiers were needlessly sacrificed and that he is especially interested in the stories of men being sent into battle just an hour before the armistice became effective.

The congressman said he believed a standing army of 150,000 or 200,000 will be sufficient for the United States if universal training is adopted.

HOMEMADE BREWS ARE COMMON HERE

Humble Raisin, Commonplace Yeast
and Ordinary Malt Extract Assume
a New Dignity

PREPARATIONS ON MARKET

Demand For Hops so Great That
Local Druggists Can Not Keep
A Supply on Hands

With the passing of old "John Barleycorn," many and varied are the substitutes being used by Rush county men who want something with a "kick in it." The humble raisin is coming into its own in the homemade mixing of the festive cocktail and the commonplace yeast and ordinary malt extract and hops have assumed a new dignity.

In fact, local druggists report such a demand for hops that they are unable to keep a supply on hands and have found it impossible to buy any more. Malt extract, which was formerly sold only for medicinal purposes, is in great demand and some druggists have even sold all which they had in stock.

With just what attitude officials will regard the use of the homemade drinks is not yet determined, because they have not come into such general use as to receive the attention of officialdom. Knowing ones say that a householder who brews for himself more than the legal amount of beer will be violating the state prohibition law and will be subject to a fine and jail sentence.

To keep apace with the times, one local druggist has ordered a solid preparation known as malt-hop, which, if the directions are carefully followed, will produce, when certain common ingredients are added, a "most delicious, healthy and nourishing beverage," according to the advertisements. Druggists estimate that none of the homemade drinks will average over four percent alcohol.

The company which offers malt-hop for sale, advertises several different brands which the buyer may choose, according to his tastes. There's the Braumeister extract, Braumeister Porter extract, Braumeister Muenchener, Braumeister Beck and Braumeister Pilsener.

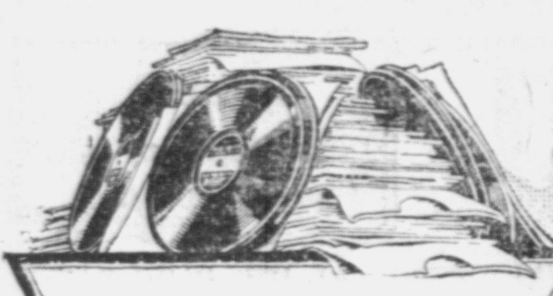

To produce the drink with malt-hop, it is necessary to dissolve two pounds of brown sugar in a gallon of boiling water, boil five minutes and strain through cheese-cloth into a six-gallon container. Hops left in the cheese-cloth should be boiled in another gallon of water five minutes and strained as before into the container.

The home brewer must then add and dissolve two pounds (amount depends on taste) of granulated sugar, and then add four gallons of water which should have a temperature to make the brew lukewarm. A half cake of compressed yeast should then be dissolved in a cup of lukewarm water, added to sugar and then to brew, which should be lukewarm or 85 degrees F. The yeast must not be added while the brew is hot.

The next step is to cover the brew well, stand it in a warm even temperature near 80 degrees for 48 hours. If warmer, the time should be shorter; if cooler, up to 60 hours. The top of the yeast should be skimmed off and bottled in clean bottles with patent stoppers, and corked tightly. In bottling, be careful not to disturb the yeast in the bottom of the containers, say the instructions. The bottles should be placed in the same warm temperature for 24 hours and then placed in cellar or any cool place with even temperature.

"In about a week or ten days," take is from the manufacturer, "it is ready to drink, will then foam readily, will greatly improve with

MINERS VOTING ON QUESTION OF STRIKE

Expected to Reject Proposal of Government Which Does Not Meet All Their Demands

WANT MINES NATIONALIZED

(By United Press.)
London, Mar. 21.—British miners are voting this afternoon on the issue that will decide whether the country is to be plunged into an industrial war. The government compromise offer, on which the ballot is being taken, concedes the miners shorter hours and higher wages, but defers decision regarding nationalization of mines.

The miners are demanding that nationalization be taken at once.

Robert Smillie, head of the miners, just before reading the government's offer to the meeting, announced that "the situation is critical." If the miners reject the proposal, they will go on strike tomorrow, as voted several weeks ago.

Railroad men and transport workers are expected to join them, threatening paralyzation of British industry.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

SCOURS IN PIGS ARE DUE TO OVERFEEDING

County Agent Detrick Says Two to Four Ounces of Limewater Daily Will Help.

SHOULD BE GIVEN PROMPTLY

At this time of the year scours in pigs cause a great deal of trouble. The trouble is commonly due to over-feeding the mother. This stimulates a large milk flow and the greedy little fellows trying to consume too much soon have digestive troubles.

"Remove the cause," says County Agent Detrick, "by cutting down the feed. From two to four ounces of limewater added to the feed of the mother once or twice daily will aid in overcoming the trouble. When pigs are old enough to eat they may be given a teaspoonful each daily. A piece of stone of stone lime half the size of ones first slaked in a quart of water, and kept handy may save lots of trouble. The treatment is more effective when administered promptly after the trouble is noticed than when delayed. When light laxative rationals like wheat middlings and ground oats are fed for a week before farrowing and for ten days after farrowing and dry comfortable quarters are provided, the danger can be reduced. When the little fellows are two weeks old it is usually safe to feed the sow all she will clean up, provided the pigs are getting a reasonable amount of exercise."

FORMER SENATOR SCORES DEMOCRATS

Joseph W. Bailey of Texas Bemoans "Passing of Constitution and Liberty" in Newark Speech

IS AGAINST HIGH TAXATION

Newark, N. J., Mar. 21.—Asserting that the Democratic party has "ceased to support Democratic principles," former United States Senator Joseph W. Bailey, of Texas, declared in an address here tonight that he would never again vote for the candidate of any party which constantly reduces our liberty and unnecessarily increases our taxes.

"Since Thomas Jefferson founded it, the Democratic party has always insisted that every state should exclusively control the local affairs of its own people, but a Democratic congress inculcated that time honored doctrine upon the altar of national prohibition and a majority voted to repeat the sacrifice in behalf of woman suffrage."

Declaring the Constitution is now regarded as "an obsolete scrap of paper," he added:

"In this day they tell us that it is better to be good than it is to be free, and they have multiplied our penal statutes until the lawyers can not carry even an index of them in their minds."

"We have restricted the rights of men until no civilized country on the globe interferes with the habits, the pleasures and the business of its people as much as this free government of the United States."

IN STATE OF COMA

Ladoga, Ind., March 21.—Bert Frame, age thirty-five, a farmer, has been in a state of coma for a week as the result of an attack of sleeping sickness. It is the first case of the new disease to be reported in Ladoga. Frame recently had influenza.

HOME MANAGERS RESIGN

Muncie, Ind., Mar. 21.—Mr. and Mrs. W. W. Gleason, for several years managers of the Delaware County Children's home, resigned yesterday following a controversy with the county board of children's guardians over alleged ill-treatment of children in the institution. Mr. and Mrs. Gleason denied rumors to this effect, but resigned, they said, merely to keep down further controversy.

DO NOT TAKE A CHANCE WITH JACK FROST

If uncertain of his probable last appearance consult experienced gardeners or the nearest Weather Bureau station.

OFFERS SUBSTITUTE FOR LEAGUE COVENANT

Senator King, Utah, Says His Plan, to be Submitted to Wilson, Protects Monroe Doctrine

WILL GO TO PARIS SHORTLY

(By United Press.)
Washington, Mar. 21.—Senator King, Utah, has prepared a substitute league of nations covenant which he will send to President Wilson in Paris, he announced today. King's plan, he said, will protect the Monroe Doctrine. Each nation is to decide its own policy on immigration, tariff and similar matters, and permit withdrawal of any nation from the league on one year's notice. King's draft also greatly reduces the number of words taken to outline the compact.

King announced he probably would go to Paris in a short time. If he does it is expected he will discuss his substitute plan with President Wilson, unless the peace conference in the meantime takes definite action on the league of nations.

NEWCASTLE WOMAN DIES IN 100TH YEAR

Mrs. Charlotte Misener, Who Moved to Henry County in 1849, Remembered Events Clearly

SON AND DAUGHTER SURVIVE

Newcastle, Ind., March 21.—Mrs. Charlotte Misener, in her one-hundredth year, died of the infirmities of age at her home here Thursday. She celebrated her ninety-ninth birthday anniversary on January 28, and was the oldest woman in Henry county.

Born in Pennsylvania on January 28, 1820, Mrs. Misener came here in 1849. Her husband was Jonathan Misner, who died years ago. All through her long years Mrs. Misener's memory remained clear, and she often recalled incidents of the early history of Newcastle.

Surviving are two children, Henry Misener and Mrs. Elizabeth May, both of this city.

Rome, Mar. 21.—The American command in France was reported today to have offered to sell Italy its entire telegraph equipment. Signor Fara, minister of posts and telegraphs, is said to have accepted the offer.

FINISH PLAT BOOKS

George Aultman, Rushville township assessor, announced today that the appraisal of real estate would be started in a few days in this township. The deputies in charge of this work, John Joyce and John A. Jones, have been busy preparing their plat books.

GRAND JURY TO ADJOURN

The grand jury was expected to adjourn today after having been in session most of this week and part of last week. A number of persons from Milroy again testified today, indicating that a thorough investigation of some character is being made there.

—Mr. and Mrs. Harve Blackledge of Pennington, Virginia, who have been visiting relatives here for the last few weeks, will leave tomorrow for Connersville for a short visit with relatives there before returning to their home.

1,500,000 French Killed

An Atlantic Port.—France in four years of conflict to preserve her own liberty and that of the world, according to Andre Tardie, French high commissioner to the United States, has lost 1,500,000 men killed and as many wounded. America owes France an enormous debt of gratitude for this heroic outpouring of her life's blood and also for the reported saving of thousands of lives in this country and throughout the world through the discovery by French peasants of a perfect remedy for stomach, liver and intestinal ailments which, it is said, has relieved innumerable suffering and prevented thousands of surgical operations. Geo. H. Mayr, prominent Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For Sale by Druggists Everywhere.—(Adv.)

County News

Richland Township

Mr. and Mrs. Lewis Golay who have been ill are improving.

Dr. Alexander of Clarksburg escaped with only a few scratches when his automobile in which he was was driving upset. The car was slightly damaged but he was able to drive back to Clarksburg.

Mr. and Mrs. Vern Lewis attended the Stiers sale near Mays Wednesday and from there motored to Dunreeth, where they saw two large tanks that were used in France in the war against Germany. They were being shipped to St. Louis.

DENOUNCES PEOPLE WHO ARE 'TWO-FACED'

Evangelist Devotes Himself to Those Who Attempt to "Carry Water on Both Shoulders"

REVIVAL WILL CLOSE SUNDAY

Evangelist Miller delivered a scathing denunciation of "two-faced" people who attempt to "carry water on both shoulders," at the revival services at St. Paul's M. E. church last night, using as his topic "Decision," from the text, First Kings, 18-21, "How long halt ye between two opinions."

Mr. Miller announced his sermon subject for tonight as "Knocking" which is expected to be somewhat interesting if not a bit sensational. The music by the chorus choir, led by the Rev. Clyde S. Black, last night was up to the standard set at previous services. There will also be special music on the program tonight. Despite the many counter attractions, a large and attentive audience was present last night and interest in the meetings continues unabated.

Delegations from Milroy and Connersville are expected at the meeting tonight. The revival will close Sunday, which is expected to be the climax of the series of protracted meetings. Scores are reported to have responded to the appeal of the evangelist and the number is expected to be doubled tonight and Sunday.

BILL DOES NOT AFFECT RUSH COUNTY SHERIFF

Legalizes the Payment of Board for Prisoners at Rate of 60 Cents Per Day

TRAVELING RATE RAISED

The bill passed by the recent legislature and signed by the governor, giving sheriffs 60 cents a day for boarding prisoners, or 20 cents a meal, does not affect the sheriff of Rush county, except to legalize the payment of money for prisoners board at this rate of pay. Since October 1917, the sheriff here had been receiving 60 cents per day for boarding prisoners, and reports that he would receive an additional salary of \$1,000 as the result of the new law are unfounded, as seen from the facts. The increase was authorized by the state board of accounts, providing the commissioners would allow it, because of the increased cost of foodstuffs.

Another bill affecting the sheriff's office was that allowing five cents a mile for taking sentenced prisoners to penal institutions. Since the railroad administration raised the rate to three cents a mile, the sheriff by authority of the state board of accounts, have been charging four cents a mile and adding the war tax to the bill. The new rate just about lets the sheriff break even and unless he is very careful he cannot make the trip at this rate.

RETIRE MINISTER DIES

Word has been received here of the death of the Rev. T. J. Anthony, veteran minister of the Methodist church, at the Odd Fellows home at Greensburg. He was the father of the Rev. J. T. Anthony of the Richland M. E. church. The elder Mr. Anthony preached in the Moores Hill district for many years. Burial took place at Laurel.

Thirty-five thousand alien women are included in the population of New York city.

CHARLES LAWSON IS ILL AT HIS HOME HERE.

Mr. and Mrs. Ort Meek of Mays spent Thursday with Mr. and Mrs. Lewis Golay.

Mrs. Blanch Kelson who has just recovered from the influenza, is seriously ill with appendicitis.

E. O. George and Joe Fey attended the Protective Association meeting held at the New Salem school building Thursday night.

The primary room at the Richmond school has discontinued on account of the illness of the teacher, Miss Dora McKay, who has the influenza. She is improving.

NAMED COURT STENOGRAPHER

Miss Margery Geraghty of this city has been appointed stenographer of the Decatur circuit court at Greensburg by Judge Craig, and will begin her duties next week. The circuit was created by the last session of the legislature, Bartholomew and Decatur counties having previously been joined in one circuit.

A different army now occupies Chateau Thierry. The American Red Cross is repopulating the barn yards with ducks, chickens and rabbits.

Coughing Tires the Old

Elderly people, tired out and weakened with coughing, will find great help and comfort in

FOLEY'S HONEY-TAR

It relieves those chronic coughs, usually bronchial in character, and puts a soothing healing coating on a dry and tickling throat. It raises phlegm easily.

George Perry Randall, Dayton, Nevada, in his 8th year writes:—"I take Foley's Honey and Tar for coughing and tickling in the throat. Sometimes the spell of coughing would last from five to ten minutes. I am very glad to tell you that Foley's Honey and Tar has stopped all that, and also the tickling."

Utilities.

A few months ago, among a group of towns in one of the northern states, the type of service being rendered by the local railroads created an acute situation. Freight charges were exorbitant and deliveries nearly always a matter of speculation.

The cause of the disease suggested the cure. A few opportunists got together, put up some money, and started operating a motor truck service among the towns. The different communities were interdependent and welcomed the new enterprise as Elijah welcomed the ravens. Consignments of goods began reaching the consignees on time. People with something to sell were no longer afraid of promising delivery before the end of the next war. Both in rates and speed the truck service competed successfully with the railroads. Everything was lovely.

It was altogether too lovely for the politicians. Politicians never want things to be lovely. They can't pose as saviors when no one is asking to be saved. They can't agitate for reforms when nobody can name anything needing reformation.

So the professional patriots reached the verdict that the truck service was too aggressively useful. It was, in fact, a utility. And utilities are things which must always be taken from the people who manage them properly and be run by professional elocutionists who don't know how to run anything, from a lathe to a cigar stand.

Accordingly they demanded legislation to regulate the service, and tell it what it could and couldn't do—particularly what it couldn't. And

ALL WRONG

The Mistake is Made by Many
Rushville Citizens

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

A Rushville resident tells you how.

Frank McFarland, 830 W. Tenth St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in terrible shape. It ached so, especially at night that I could hardly sleep. Mornings my back was so stiff that when I bent over, I could hardly straighten again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good results, I thought I would try them, so I got a box at Johnson's drug store. They helped me right away and I kept on using them until I was cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Adv.)

the truck system—which once satisfied everybody—seems in a fair way to die from overdoses of legislation—just like the railroads.

Anything that everybody finds useful is a utility, and as much is pie for politicians. If you ever invent a new way of using mineral produce or preserving foodstuffs, or conserving energy, or developing motive power from the tides or solar heat or anything else, don't do it too well. At least, don't do it well enough to make it useful to everybody.

Life was less complex in the day when it challenged each man to do the best he could. We must learn a greater precision, now that the art of living consists in doing one's work just badly enough to escape being forbidden to do it at all.

The folks who complain of the high rate of fire insurance commonly include a lot who keep their ashes in wooden barrels.

A lot of people who kick because printed matter costs high, throw away all their waste paper and thus help make paper stock scarce.

If some people would keep their mouths shut a larger portion of the time, there would be less danger of their swallowing the "flu" germs.

The dear girl who appeals so pitifully for sympathy for her racking cough, is often the same one who puts on her extra low-cut waist in cold weather.

"Button, button, who's got the button?" We learn that few buttons have been made here since the United States entered the war and that the supply is almost exhausted. Be careful of buttons, unless you wish the time to come when you will be obliged to pin your clothes together.

The war used to be three thousand miles away—and now the President is.

The doughboy who comes home from France expecting to be married at once will have nervous prostration when he buys his first American newspaper and reads in the advertisements "Women's spring suits, \$45.00, Women's oxfords, \$12.50," to say nothing of the produce and market reports.

Humidity after July 1st:—Absent in the United States. Extreme in Mexico.

Mr. Hoover is right when he declares that Germany must be fed. Hunger is a poor political adviser.

How would "near-beer work" answer as a slogan?

SOLDIERS APPLY FOR HELP

Only 3,655 Getting Special Training Advantages.

(By United Press.)

Washington, March 21.—Not every wounded American soldier is entitled to retraining by the Federal Board for Vocational Training. Under the law, the soldier must first have been awarded compensation by the War Risk Insurance Bureau.

To date the Bureau has awarded payments for injuries to only 3,655 men who are now receiving special training, but many thousands more have their applications under consideration by the bureau at this time.

PLUNGES DOWN EMBANKMENT

Alexandria, Ind., March 21.—Arthur Cox, 50 years old, a loan dealer of Elwood, was injured seriously last night on the Alexandria-Elwood pike, two miles west of this city, when the automobile he was driving plunged down a ten-foot embankment and turned over. James Gee, who was with him, escaped injury.

Sap and Salt

By BERT MOSES

Widows and rich relatives live long.

A good way to conceal ignorance is to be dignified.

In taking exercise, do not overlook the mental muscles.

Smart people are only about one-half as smart as they think they are.

Any man who tries to get more for his money than his money is worth usually gets skinned.

If you have never experienced the joy of beating the other fellow to it, then you do not know what true joy is.

Hez Heck says: "When others are not boring us, we are usually boring others. Life is just one bore after another."

High School Notes

The preceding week has been a rather dull one for the school. There have been practically no activities to speak of and with so many teachers absent, the work was not normal. The six weeks grades were to be given out Monday but it was thought best to wait until the regular teachers had returned. Miss Denny is still out and Serg. Williams is teaching the algebra classes in her place. Mr. Schiedler has not been able to be at school since a week ago Thursday and Lieut. Fosler has had charge of his history classes. Miss Black of the Junior High is home sick and Mr. Scholl is also unable to be here this week. Quite a number of the students are absent also. If any more get sick we might as well close the school and turn it into a hospital.

A group of first graders from the Jackson school sang before the assembly Thursday afternoon at the general assembly period. Little Walter Keaton proved quite a "hit" in a short poem which he recited. All the other number on the program were by the "sextette". The real talent shown in the program was hidden by the performers stage fright.

If it is still considered a patriotic duty to give a returned soldier a job, the school officials are certainly patriotic. During the past week four of Uncle Sam's former fighting men were on the faculty. Two of them were substitutes, however.

Now that the regular basketball season is over interest is centered in the inter-class games. The freshman defeated the juniors Monday night in a game by a score of 10-7. The next evening the sophomores defeated the "freshies" by the overwhelming score of 60-7. No one has yet accepted the challenge of the seniors. They have a team composed of all varsity men and of course everyone's rather shaky about attacking them. Perhaps the sophomores and faculty combined could give them a good game. Let's hope so.

Track season is also beginning to take hold. A group of boys can be seen putting the shot and hurdlings before and after school each day.

SCHOOL TO OPEN MONDAY

The Manilla school will be reopened Monday, it was announced today. The school was closed last week on account of several teachers being ill with the influenza and had to remain closed this week on account of water standing in the basement of the building. All but one of the teachers who were ill, have recovered.

ARRIVES IN STATES

Mrs. Donald Sampson of this city received a telegram last night from her brother, Corporal James Meek, to the effect that he has safely arrived in New York from overseas. He states that he came over on the Dakota and is stationed at Camp Mills New York. He is expecting to be discharged from the service in a few days.

New Lumber Yard At MAYS

We are installing a complete building material supply yard at Mays and take this means of calling the attention of the citizens of the adjacent territory to this fact.

OUR MANAGER, MR. MILTON W. OSBORNE is in position to furnish

Everything to Build Anything

He will have the advantage over the average small town yard, owing to the fact that he has direct connection with a parent yard, carrying a complete line, full stocks and equipped with a first class planing mill.

We also call attention to WIRE FENCE AND POSTS—
Special prices on these lines.

Pinnell-Tompkins Lumber Co.

PLANS ARE BEING MADE FOR 9 NEW BUILDINGS

Structure to be For Use of Women Inmates of the Indiana Village for Epileptics.

ORIGINALLY BUILT FOR MEN

(By United Press.)

Newcastle, Mar. 21.—Plans are going ahead rapidly for the erection of nine new buildings at the Indiana Village for Epileptics, it was announced today. The buildings will be for the use of women inmates, who heretofore have been in cramped quarters. The only buildings built originally were for the use of men.

Dr. W. C. Van Nuy, superintendent of the institution, is planning to call the trustees together soon and ask for bids on the nine buildings. The plans are already drawn having been prepared two years ago. The work was not started at that time however because of the impossibility of getting bids under the estimates.

In the appropriation of \$427,000 granted by the legislature authorities of the village consider they have sufficient money to make the more urgent repairs and improvements. Of this sum \$36,000 was available at once to start work on the new building.

Fourteen hundred acres are owned by the state.

CHAPTER DEGREE WORK

Rush Chapter No. 24 R. A. A. M. will have work in the Mark Master degree Monday evening beginning at 7:30. A buffet luncheon will follow the degree work.

SERVICE FOR U. S. DEAD

London, March 21.—A memorial service for American soldiers and sailors who fell in the war is to be held in Westminster Abbey April 4.

Baby Coming To Your Home?

The Wonderful Event That Will Bring Much Gladness.

Are you looking forward, dear prospective mother, to the wonderful, glorious time when you shall hold in your arms the little mite, which is of your flesh and blood, with feelings of mingling?

Now is the time to get in condition to meet the crisis, and three generations of women have found in the time-honored preparation, Mother's Friend, a grateful, penetrating remedy to prepare their systems to withstand the shock.

The action of this famous remedy is to relieve tension on drawn nerves, cords, tendons and ligaments, to relieve strain and discomforts, such as nausea, nervousness, bearing-down and stretching pains. By regular use during the period the muscles expand easily when baby is born; pain and danger at the crisis is naturally less and the hours are fewer. Do not neglect the use of Mother's Friend. It is for external application only, is absolutely safe and wonderfully effective.

Write the Bradfield Regulator Company, Dept. N, Lamar Building, Atlanta, Georgia, for their Motherhood Book, and obtain a bottle of Mother's Friend from the drug store. It is just as standard as anything you can think of.

You'll Pick a Winner!

When you choose from our immense stock of GROCERIES. Our Groceries are always of standard quality. Let us promise you quick service and satisfaction and then GIVE US A CHANCE TO KEEP OUR PROMISE.

JUNIOR HIGH SCHOOL BASKETBALL TOURNEY

Thirty-two Teams From all Over the State Will Compete for the State Honors

RUSHVILLE TEAM WILL PLAY

After the close of the state high school basketball tournament last week interest has turned to the games to be staged by the younger players and now centers in the state Junior 105-pound tourney that will be held at Newcastle Friday and Saturday March 28 and 29, under the auspices of the Young Men's Association. The tourney will be made an annual affair, and gives the younger basket tossers a chance to display the metal that they are made of. Thirty-two teams over the state have asked to take part in the tourney, but it is probable that many of these teams will be eliminated and only the best will be allowed to take part.

The local Junior team is sure of a place in the running as they are looked upon as strong competitors for the honors. Entries for the games closed last Saturday and those in a position to know declare that is going to be a huge success.

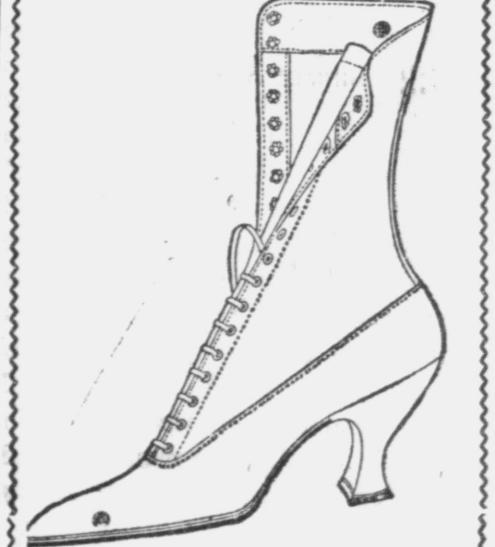

Muncie has entered a strong team while Marion, Anderson and the local quintet are looked upon as the strongest contenders. The play in the tourney will begin early Friday morning and continue until Saturday night when the championship game will be staged. Trophies will be awarded the players on the winning team and a banquet will be tendered the champions after the final contest. The schedule will be arranged the latter part of this week.

RICHMOND NEEDS HOUSES

Richmond, Ind., Mar. 21.—Only forty-seven vacant houses, most of them undesirable, were reported in Richmond today following a canvass made by employees of the post-office. Real estate men say that they have more than 300 applications for rental property.

At the Anti-Aircraft School at Nettuno, Italy, 200 men enjoy the soldiers' Rest House established there as a gift of the American Red Cross.

Janesville Tandem Disk Harrow

THE Budlong Harrow is the only harrow we know of in which the bearings do not cramp while the machine is working. This freedom in the bearings means light draft and flexibility in the whole harrow. This allows the Budlong to make use, in a natural way, of all of its penetrating qualities to thoroughly pulverize the soil under the most trying conditions.

The rear harrow is built like a bridge and no manner of hard work will ever force this harrow to buckle in the middle.

Its Backbone Is as Rigid as a Concrete Arch

The trailer steadily holds its place back of the Budlong, whether used on side hills or on the level, on account of the way it is attached to the front harrow.

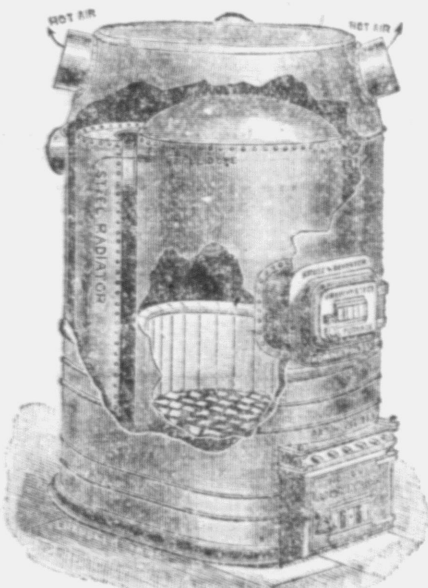

The same material used in all Janesville machines is found in the Janesville Tandem. Made in sizes from four to ten feet with sixteen-inch blades.

We looked them all over and felt our trade and local conditions would be best served by this Janesville model. Compare notes with us before you buy.

C. H. (Nick) TOMPKINS

The Monarch Kruse and Dewenter Annealed Steel Warm Air Furnace

The accompanying cut represents our "MONARCH & PORTABLE FURNACE." This furnace is designed as a strictly first class furnace in every respect and as a portable furnace is superior to any of its kind. It is readily seen from the engraving that the furnace has a very large radiating surface. The radiator is made upon an entirely new plan having reversible flues, the smoke and heat passing through two openings each side and down to the base of the radiator and then back again to the top before entering the smoke flue, thereby preventing a loss of heat. The furnace is constructed throughout of annealed steel plates and is absolutely gas-tight in every part. The fire box is lined with fire clay tile lining. It burns anthracite and soft coal, coke, wood and natural gas. In use over 35 years. Sold and installed by

Walter Perkins

with 22 years of practical experience in warm air heating. Why take a chance on a furnace with a cast iron fire pot installed by some one who knows little or nothing of warm air heating when you can get the best at a less price than you are asked for a cast iron furnace.

WELCOMED HOME BY HIS CONGREGATION

The Rev. M. W. Lyons is Surprised to Find 200 People Assembled on His Return Home

GIVEN SUBSTANTIAL PURSE

The Rev. M. W. Lyons was very pleasantly surprised last night, when on his return home last night at eight o'clock from Morristown, to find two hundred members of St. Mary's Catholic church congregation assembled there. The occasion was to celebrate the pastor's return from a month's visit in Porto Rico. He arrived home Wednesday evening.

A. H. Schriebe presided at the informal welcome which was extended to Father Lyons, consisting of a musical program and short talks. On his arrival the people in the parsonage sang "We Kept the Home Fires Burning," which was an adaptation of the popular song, "Keep the Home Fires Burning." Father Lannart, who has been acting as pastor during Father Lyons' absence, spoke briefly, giving his impressions of Rushville, and Robert E. Mansfield made the welcoming talk, presenting Father Lyons with a check for a substantial sum as a token of appreciation from the congregation. Father Lyons responded in a happy vein, and gave a brief description of his trip. The song which was sung as Father Lyons entered follows:

We kept the Home Fires Burning
And prayed for your returning,
Though you were far away
We longed for you,
There's a silver lining
'Neath each dark cloud shining,
We turned the dark cloud inside out
Until you came home.

Mae Murray at Mystic.

The Mystic theatre is offering a special production tonight, featuring Mae Murray in "Her Body in Bond." This picture is founded upon facts that actually happened to a friend of Miss Murrays.

Same Program at Princess

Wallace Reed in "Too Many Millions" is the offering at the Princess theatre again tonight. Roseoe "Fatty" Arbuckle is also on the program in one of his best comedies,

A tractor that will fit your farm—the Fordson

YOU can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

There's an Oliver No. 7 Plow for your Fordson

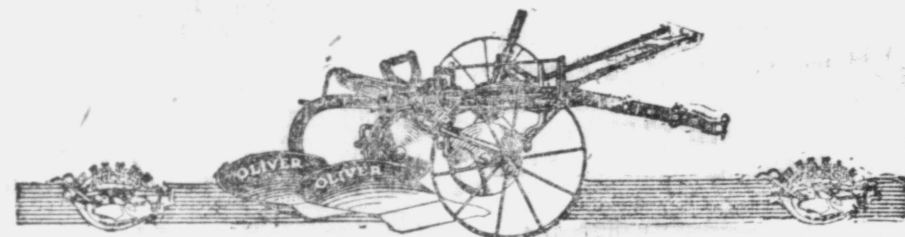

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

Come in and let us show you this remarkable farm team.

Boxley's Piano Store
128 WEST SECOND STREET.

The meeting and pitch-in supper of the Plum Creek Aid society, which was to have been held next Wednesday, has been indefinitely postponed.

Mrs. Jack Knecht will be hostess for the Tri Kappa meeting Monday evening at her home in East Sixth street. As this will be a business meeting all members are urged to be present.

One of the delightful social events of the season was the Social club supper given at the Social club rooms in North Morgan street last evening. The delicious two course turkey dinner was served on small tables and the Franklin Jazz orchestra furnished the music for the evening. One guest, Miss Cooper, of Greenfield, was present.

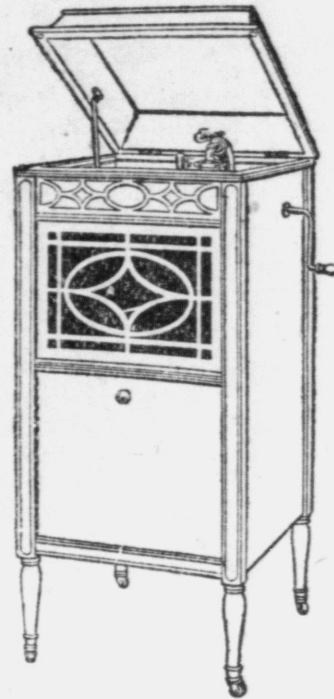

The members of the Pleasant Ridge Epworth League cabinet met last evening at the home of Miss Opal Mull southwest of the city, and conducted a business meeting. Plans were discussed for the "Win-My-Chum-Week," to be given next week, beginning Tuesday evening, March 25. Other plans were also discussed for the coming year.

The W. R. C. circle enjoyed a very interesting meeting yesterday at the home of Mrs. J. C. Craig at her home in East Eighth street. After the business session the afternoon was spent socially with music and light refreshments were served by the hostess. The next meeting will be with Mrs. Ella Higgs at her home in West Second street.

A number of friends of Mr. and Mrs. Will Sipe, of Orange, gave them a kitchen shower and pitch-in supper last evening on the occasion of their entering their new home. Those present were Mrs. Ella Bever and family, Mr. and Mrs. John McKee of New Salem, Mr. and Mrs. Will McKee, Mr. and Mrs. C. H. McKee and family, Mr. and Mrs. S. S. McKee and family, Mr. and Mrs. A. R. Mahin and family, Mr. and Mrs. Phillips and family and Mr. and Mrs. O. P. Wamsley.

Mr. and Mrs. Luther Hungerford, living southwest of the city, entertained a number of their friends Tuesday evening with a rook party. Those present were Mr. and Mrs.

HOME MADE BREWS
ARE COMMON HERE

Continued from Page One
age and will make a most delicious, healthy and nourishing beverage.

But brewing according to the above formula is almost equal to starting a brewery.

In lieu of the manufactured article, many are now using a strictly homemade formula in one of the following ways:

Mix two pounds of hops, a peck of malt and five gallons of water. Steep for three or four hours. Then drain off water and put in keg. Cover the hops and malt with five gallons more water and heat, but don't boil. Dissolve in this two pounds of brown and three of white sugar. Allow to cool to 50 to 90 degrees and add three yeast cakes; put all in a barrel and let it stand for 96 hours. Then bung it up and set away for at least a week.

A pound of raisins, a pound of brown sugar and a gallon of water make up the only necessary ingredients of a "guaranteed" cocktail substitute, according to some. The concoction should be brought to a simmer, placed in a wooden vessel and allowed to "work" for fifteen days.

Put two quarts of white corn in a keg of cider. Allow to ferment. The result is astounding and in keeping with the best traditions of Kentucky distillery products.

Put two raisins in a bottle of near-beer. Let it sit a while.

POPULAR HOSPITAL VISITOR

Mrs. John Jacob Rogers, wife of Congressman Rogers of Massachusetts, is said to be the most popular ward visitor at Walter Reed hospital, Washington. She has been serving wounded soldiers since the first one came from the other side.

Studying for the Screen.
"I heard from Umson last week."
"What is he doing?"
"Attending some kind of a school in New York."
"Getting on all right?"
"Broke an arm last week, he told me."
"Whee!"
"And the week before that he sprained an ankle."
"Well."
"One day he nearly lost an eye."
"I never did believe in too much school athletics."
"This is different."
"In what way?"
"I asked Umson what he meant by that kind of conduct, and he said if he holds out long enough he is going to be a moving-picture actor."

COUNTY REPRESENTED
AT CONFERENCE TODAY

Four Women From Here Attend the Meeting of Red Cross in Indianapolis.

DISTRICT WORKERS SPEAK

A conference of the Red Cross workers of the state was called by the superintendent of the Women's Red Cross work in Indiana, Mrs. Hugh McGibeny. This conference is being held in the assembly room of the Hotel Severin today. Mrs. Harry Jones, Mrs. Phil Wilk, Mrs. Willard Amos and Miss Sue Gregg are representing Rush county.

An attractive feature of the conference was the luncheon at 12:30 o'clock. Many of the best speakers from all over the state were present. The chief interest centered around Mrs. Maude Smythe Strieburger, director of the chapter production of the Lake division. C. B. Dyer, superintendent of supplies, also attended, with Martin Tellen, Red Cross field director, who told the women workers how their work was appreciated by the boys overseas. Tellen was overseas and was expected to relate some interesting first-hand stories.

Under the patronage of the Red Cross a remarkable exhibition of porcelains made by wounded soldiers was held in Paris recently.

MOTHER GRAY'S POWDERS
BENEFIT MANY CHILDREN

Thousands of mothers have found Mother Gray's Sweet Powders an excellent remedy for children complaining of headaches, colds, feverishness, stomach troubles and other irregularities from which children suffer during these days and excellent results are accomplished by its use. Used by mothers for over 30 years. Sold by Druggists Everywhere.—(Adv.)

REIGN OF ANARCHY MARKS RULE OF THE BOLSHEVIKI IN RUSSIA

World May Never Know What Toll in Death and Misery the Lenine-Trotsky Regime Has Brought to Russia—Declare War on Humanity by Sending Missionaries to Spread Anarchistic Teachings in Other Countries.

By LLOYD ALLEN,
Western Newspaper Union Staff Correspondent.

(Copyright Western Newspaper Union)
Russia was the great unknown quantity in world affairs when the peace conference started its session in Paris. Was the giant of nations, with its 180,000,000 people, rotten to the core with the anarchistic doctrines of the bolsheviks, or was there a sound fabric in the gigantic ex-autocracy on which a future state government could be built?

Among the American members of the peace delegation the belief was held that Russia was not entirely corrupted with the teachings of Lenine and Trotsky, the bolshevik leaders. It was believed that Petrograd and Moscow, the large cities of Russia, were the worst centers of anarchism, but that the great public of Russia were fast tiring of a regime that gave them only promises and withheld food and put industry into a state of stagnation. There were 25 other political groups in Russia that opposed Lenine and Trotsky, and from these cliques it was hoped that some program could be developed to the satisfaction of Russia's people, as well as the peace conference, a program that would rejuvenate Russia and be the means of ending the so-called bolshevik government in Petrograd that was endeavoring to sway, not only Russia, but the whole world as well.

Declare War on Humanity.

For Lenine and Trotsky, with their immediate followers, had declared war on humanity; had openly announced it was their intention to send bolshevik missionaries to all civilized nations to preach fair words and if possible introduce reigns of terror in all the civilized nations. This threat was not taken too seriously by the allied peace delegation in Paris. But it was admitted that preachment of ultraradical doctrines during the trying period of world demobilization was an extra evil that should be discouraged. No added burden should be placed on a world endeavoring to return to the ways of peace, particularly when it was definitely known that the bolshevik doctrines, as preached, were entirely different from the same maxims as practiced. Russia's plight was the outcome of admitting bolshevik missionaries, bringing ruin for Russia and enrichment to Lenine and Trotsky and their immediate followers.

Before the war had actually ended the bolshevik missionaries were starting on their errands of "education." Ample provided with gold or securities dozens of these revolutionaries were apprehended when endeavoring to pass frontiers leading into allied territory.

Men attached to the American peace delegation in Paris were familiar with the workings of the bolshevik machine. Our officials had fairly adequate reports on what was taking place in Russia, especially in Petrograd and Moscow, and after watching the bolshevik regime for more than a year knew that there was only one method by which the bolshevik could perpetuate their existence. That was by spreading revolution and not by conducting a government, for as administrators of government the bolshevik had proven their utter incapacity.

Brought Ruin to Russia.

They had brought rank ruin to Rus-

sia, but money into their own coffers. They saw more money for themselves in introducing their doctrines into foreign lands. They, in short, had made a paying business of revolution.

As for Russia, the methods adopted by the Lenine-Trotsky crowd were infinitely worse in tyranny and autocracy than anything officials of the czar had ever inflicted on the long-suffering population.

Starvation was made into a weapon by which converts were created for the bolshevik cause. The food supply of Petrograd and Moscow was systematically limited, curtailed until people who did not openly support Lenine and Trotsky, or work in the so-called state factories, or join the Red Guard in its bloody atrocities, were actually starved to death, but to the Red Guard, and men and women working for the bolshevik autocrats, food and money were supplied in some abundance.

Information concerning Petrograd usually came to Paris, and to the American peace delegation, from Americans of Russian descent who managed to escape from Russia. The stories these Russian-Americans told surpassed stories of the French revolution in 1793, and that revolution, until 1919, was the high-water mark in bloody episodes of modern times.

It was fairly well authenticated, for instance, that the starving people of Petrograd, in some cases at least, reverted to cannibalistic practices, so great was the urge of hunger. The shooting of innocent people in the streets by members of the Red Guard became such an old story that it was no longer news.

If the cost of living was high in other parts of Europe it was possible for working people to earn a living in France, England and Italy and have sufficient food. But in Russia the government of Lenine developed a set of conditions that made living an impossibility for a large section of the population in the cities.

When starvation threatened to produce serious rioting in Petrograd or Moscow, Lenine's government sanctioned the distribution of just enough food to take the edge off the temper of the crowd.

Reign of Terror.

All the while an army of 200,000 men (the Red Guard) committed acts of terrorism in an effort to maintain bolshevik supremacy and prevent a counter-revolution. The army was built around 20,000 to 30,000 Lettish sharpshooters and 8,000 Chinese mercenaries who were the only faithful elements in these troops. The remainder of the 200,000 members in the Red Guard were admittedly sick of the whole business and only prevented from returning to their homes by the knowledge that once out of the army three meals a day would become a thing of the past.

To half of the army food was the only thing demanded of the government. The remaining 50 per cent—the older men—were not content with promises and food, but also demanded some money. So Lenine and Trotsky allowed these soldiers a wage of 600 rubles monthly.

This Red Guard was the force with which the all-Russian committee against revolution prevented any other party coming into power. There were 25 political groups all told that were anxious to grab the reins of government, but the Red Guard, acting on orders of the all-Russian committee, wreaked bloody vengeance on any clique that endeavored to make itself heard.

When the peace conference proposed calling a meeting of delegates of all Russian parties to be held on Princes Island in the sea of Marmora, near Constantinople, it was definitely known in Paris that the great body of the Russian public was sick and tired of bolshevik rule, and that the interior of Lenine's soviet system of government had started to crumble. It was a condition of the Princes Island meeting that military enterprises of the bolshevik should be stopped. It was the idea of the American section of the peace conference to encourage a truce between the clashing Russian elements—for the sake of Russia's people.

Turn to Germany.

Lenine had a vision of the downfall of his autocracy—when Germany broke diplomatic relations with Petrograd. But Trotsky, partner in most of Lenine's plans, put forward a scheme of perpetuating the Russian rule of terror. Trotsky saw in a German revolution and acceptance of bolshevik rule enrichment of the bolshevik inner circle. Germany had a fairly prosperous merchant class whose property under bolshevism would go largely to bolshevik leaders. Eventually, Trotsky saw a bolshevik world—and power and gold for the firm of Lenine, Trotsky & Co., specialists in the ruination of nations. Trotsky, with his plan, won over Lenine, just after the Germans severed connection with the soviets.

While hundreds died daily in Petrograd from hunger and from bullets of the Red Guard, the Moscow presses were busy printing the leaflets that portrayed bolshevism as the remedy

Pennant Syrup has come back!

Pure, wholesome, delicious Pennant Syrup, with its maple-like flavor, is ready for your table again.

During the war it was impossible to obtain the pure granulated sugar that goes into Pennant. Rather than sacrifice Pennant quality in the slightest degree, we stopped making Pennant temporarily.

And now Pennant has "come back"! We believe it to be the best syrup that ever smiled up at you from your waffles, biscuits, bread, cereal—or wherever you like it best.

Children love it. "Grown-ups," too. It is good for them. Your grocer has Pennant again. Ask for it today.

Air-tight, friction-top can.
Easy to open—easy to close.

Pennant

Smack-your-lips syrup—with a delightful maple flavor

TO RETAIL GROCERS: Your jobber now has Pennant Syrup and will gladly fill your order.

SPRING FEVER

Following Colds, Grippe, Thin, Watery or Poisoned Blood

(BY DR. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, with little of no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloe and jalap, and sold by almost all druggists in this country as Dr. Pierce's Pleasant Pellets.

From Muncie, Ind.—"When I had a severe cough, night sweats, loss of weight and appetite, I was induced (by reading a pamphlet) to try Dr. Pierce's Golden Medical Discovery. I took it faithfully for about 40 days, and gradually I gained; the cough disappeared and I put on flesh and got strong again. I took no other medicine at the time. It did a great deal of good and I shall always feel grateful to Dr. Pierce for this remedy. I have had no cough for 14 years, since I was cured by 'Golden Medical Discovery.'—Mrs. Lucy McCoy, 512 E. Howard St."

for all political evils of modern times. "Down With the Old Civilization!" was the slogan of the Moscow and Petrograd followers of Lenine and Trotsky. This cry was the natural development of bolshevik government, which officially proclaimed on January 13, 1918, "private possession of the land is abolished forever and the entire agricultural area is to be distributed between the working people free of payment."

"All banks are henceforth property of the state."

"A Red army of workmen and peasants is to be formed to maintain order. All loans to the czar's government by the bourgeoisie (merchants, bankers and professional men) are to be cancelled."

These regulations, given out as official proclamations in Petrograd, were but the beginning of the bloody bolshevik regime.

Truth May Never Be Known.

It was the start of over a year of terror for Russia. No one will know until years have passed, perhaps never, what toll in dead bolshevik rule brought. No human mind can measure the misery brought to noncombatants.

MOTHERS

Reduce your doctor's bills by keeping always on hand—

VICK'S VAPORUB

"YOUR BODYGUARD"—30¢, 60¢, \$1.20

While the Red Guard controlled Russia and when delegates were invited to the Princes Island convention by the peace conference to thrash out a sound program for a new Russia—allied and American groups in Paris, especially the American Red Cross, were planning relief expeditions to start the moment access could be gained into Russia.

It was agreed that medicines, physicians, food trains and first-aid materials must be rushed to stricken centers at the earliest possible date. This was the kind of intervention in Russia that officials of the associated powers hoped to see come out of the future.

DAHLIA IS MAKING FRIENDS

Once Humble Flower Rapidly Being Brought to High Position by the Master Florists.

The chrysanthemum is not to have everything its own way in the world of flowers. No doubt the chrysanthemum show gets more of the limelight of publicity than a dahlia show, but the gorgeous blossom that was once called "the prim old maid of the flower world" is having its "shows" or exhibitions just the same, and the reports have it that they are attended by large crowds. The dahlia show has become a regular thing in many cities and it is said that there are persons who can work up quite as much enthusiasm for the dahlia as for the "mum." The dahlia, from a very simple and home-loving

flower, has become somewhat of a social pet.

It was not many years ago that the dahlia bloomed in the yards of small homes. Sometimes it grew in the front yard and sometimes in the back yard. It might be remarked here that the "yard," especially the "front yard," has disappeared. Nobody now has a front yard. Nobody who is anywhere near up to date would have such a thing about the house. The piece of real estate which we used to call the front yard has become the "lawn."

Well, formerly the dahlia grew only in the yards of humble homes. It had

not broken into what is called "society." Fashionable "grounds" could not think of admitting such a plain, hardy and highly colored citizen of the flower world as a mere dahlia. It did not belong to their set. But the merit of this flower and the high state of culture which it has attained under the guidance and tuition of master florists has forced the proudest gardens to open their gates or let down their fences. The dahlia now holds up its stately head among the exclusive set of tuberose, gladioli, carnations and the like.

For a Pain around the Heart after Eating.

TAKE

PEPSINCO

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pain; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications of indigestion which PEPINCO immediately relieves—Keep PEPINCO handy and take it the next time.

Ask your druggist—he sells and recommends Pepsinco.

AGREED SPIRITUALLY BUT SPLIT MATERIALLY

George Joseph Taylor and Wife
Could Not Agree When it Came
to Material Things

MARRIED LESS THAN A YEAR

San Francisco, Mar. 21—George Joseph Taylor, who knows where heaven is and who is about to tell the world its exact location in a book, is seeking a divorce from Marie Zentgraf Taylor, his million dollar New York bride.

After less than a year of married life Mrs. Taylor has returned to her Riverside Drive home in New York, where she will continue studying spiritual subjects and preparing lectures.

So long as the two lived in the spiritual world, in which they were engrossed, they were happy together, Taylor said. But when they came down to material things they learned they were not suited.

PATRIOTIC RALLY PLANS COMPLETED

To be Held in the Local United Presbyterian Church Monday Evening, March 24.

DR. J. S. MCGAW TO BE SPEAKER

Will Deliver Popular Address on
"America and the New Era"—
at Milroy Sunday.

Arrangements have been completed for the great patriotic rally to be held in the United Presbyterian church of Rushville, Monday evening Mar. 24th at 7:30, when Dr. James S. McGaw of Los Angeles, Calif., will deliver his popular address on "America and the New Era". Dr. McGaw will deliver the same address at the Milroy school auditorium Sunday night at seven o'clock.

Dr. McGaw, for the past ten years has been the general field secretary of the National Reform Association. He has had special charge of the work of the National Reform Association on the Pacific coast but has frequently toured the country speaking in practically every state on various subjects related to the moral interests of this country.

The success of the second World's Christian Citizenship Conference held at Portland, Ore., shortly before the war began was largely due to Dr. McGaw's leadership. He is now engaged in preparations for another world gathering to be held in Pittsburgh, Pa., Nov. 7-14, when citizens of many nations will gather to confer regarding the moral interests of mankind.

The address which Dr. McGaw is to give here has received hearty approval from thousands of enthusiastic auditors in all sections of the United States. In it he reveals the leadership of the American and the responsibilities and opportunities which have come to America to aid in the reconstruction of civilization.

Those who have heard Dr. McGaw are so hearty in their praise of his patriotic, interesting and unusual subject matter and of his eye-clinic delivery that a large audience is expected by those having the meeting in charge. This patriotic rally is for both men and women of all faiths. The local arrangements are in charge of the Rushville Ministerial Association.

A thousand-acre farm in the heart of a city would doubtless be looked upon as a poor business proposition and a waste of valuable space. But in hundreds of large cities of the United States the corporate limits surrounded last year thousands of little farms, the aggregate area of which ran into thousands of acres. Nor were these garden farms a poor business proposition, for the land had been idle for many years, and the time spent in its cultivation in most cases would have been wasted.

Nobody knows how many city gardens were planted or how many acres were really occupied last year, but it is known that the value of the products of these gardens ran into many millions of dollars, and that the home food plots helped materially in providing food for the hungry. A survey of the situation discloses that there still are thousands of acres of idle land, suitable for gardens, in and around our large cities and industrial centers. There still is great demand for food production and conservation, and the man who turns idle city land and spare time into edibles will serve his country by raising a part of his own food and lessening the drain on regular farms.

EXCESSIVE ACIDITY
is at the bottom of most digestive ills.

KI-MOIDS

for indigestion afford pleasant and prompt relief from the distress of acid-dyspepsia.

ONE MAN OPERATES BOTH TRACTOR AND IMPLEMENT

MOLINE
UNIVERSAL TRACTOR
It Solves The Farm Help Problem

With two 14-inch bottoms, under average plowing conditions, the new Moline Universal Tractor, Model D, plows 9 acres in 10 hours, as much as ordinary 3-plow machine. The superior efficiency of the Moline Universal is due to its higher speed, 3½ miles an hour, two bottoms at 3½ miles giving the same number of plow-miles as three bottoms at 2½ miles.

Plowing at 3½ miles an hour gives ideal results, the ground being pulverized more thoroughly than at slower speeds, with less air space. Tough sod that cannot be turned at all at 2½ miles an hour is plowed with ease.

Perfect work is assured with the Moline Universal through the advantageous position of the operator, who sits on the implement, where he must sit in order to do good work. The Moline Universal is easily handled, turns short, and backs as readily as it goes forward.

Waste of time in the field is eliminated and the tractor kept at productive work a maximum number of hours a day through a complete electric starting and lighting system. The Moline Universal is the only tractor thus regularly equipped.

The secret of the speed and power of the Moline Universal lies in its perfected overhead-valve engine and two-wheel construction. The engine develops 18 horsepower at the belt, and 9 at the drawbar, every ounce of which is available for pull. There are no dead wheels to drag along that only carry weight and steer.

For plowing in extremely soft ground, the Moline Universal is equipped with a differential lock that enables the two drive wheels to be locked together, doubling their pulling power.

When plowing the land wheel is raised so that the tractor is level. The wheel is very easily and quickly raised or lowered.

The light weight of the Moline Universal, 3380 pounds, and its high clearance, 29½ inches, make it adapted for all other field work, besides plowing. With it one man can plant 40 acres a day, cultivate 20 acres a day, harvest 25 acres a day, or do any other work with equal speed. It is the ideal tractor for any sized farm, practically eliminating horses and solving the farm help problem.

Call and let us show you this remarkable machine.

All Traces of Scrofula Cleansed from the Blood

Impurities Promptly Wiped Out.

If there is any trace of Scrofula, or other impurities in your blood, you cannot enjoy the full physical development that a healthy body is capable of until your blood has been thoroughly cleansed and purified of all traces of impure matter. S. S. S., the wonderful old purely vegetable blood remedy, has no equal

for removing the last trace of Scrofula and other blood taints, and there is no case that it does not promptly reach. S. S. S. will thoroughly cleanse and remove every disease germ that infests the blood and give you new life and vigor. It is sold by all druggists and you should get a bottle and begin its use to-day. Write a complete history of your case, and you can obtain expert medical advice free by addressing Medical Director, 30 Swift Laboratory, Atlanta, Ga.

PARENTS HEAR FROM PVT. EDWARD COONING

Is Located in Base Hospital 118 at Saveney, France, Serving in Capacity of Clerk

IS ANXIOUS TO COME HOME

Mr. and Mrs. John Cooning of North Sexton street have received recent word from their son Edward who is now serving in Base Hospital 118, at Saveney, France, as a clerk. Private Cooning was taken ill while in England and was taken to a hospital there for treatment, when he had recovered he was transferred to France in January. Cooning and Robert McNecley are said to be the only two boys in France who were formerly members of the sanitary detachment.

The letter in part is as follows: "Suppose you are wondering what has become of me by this time. I am at a T. B. hospital, working instead of a patient. I work in the registrar's office and the rest of the fellows here are certainly a dandy bunch and we are having as good a time as we can expect to have in the army.

"I saw a fellow from home about two weeks ago, Roy Roman, I don't think you know him, we played football together for two years. He was leaving for the States, and I just had time to say hello to him. I sure would have given a lot to have talked to him for a while.

"I hear the most of my division is back and my regiment was at Ft. Benjamin. They sure are a lucky bunch of fellows. Wish I was with them. If they are there, some of them are home by this time and if you see any of them give them my best. I haven't any idea when I will be home but I think in a few years at least, ha. This place is said to be one of the finest parts of France in the summertime.

"It has been three months since I have had a letter from anyone and the next one I get I am going to save as a souvenir. I am well and O. K. and please don't worry about me for I am going to write oftener and hope to be home soon."

LAST NUMBER OF COURSE

The last number of the New Salem lecture course will be given in the auditorium of the high school building tomorrow night. This will be given by a concert company and promises to be one of the best numbers on the program.

DON'T BUY

Farm Implements

Until you investigate the firm that makes them. There are lots of implements offered for sale in Rush county this year that were made by firms now out of business, and you will have trouble getting repairs and every farmer knows what that means—DELAY and EXPENSE right when you want to use the machine. They may be a trifle cheaper now but they will be useless when you can't get repairs for them. If you buy an implement from me you can get repairs for them in a HUNDRED years from now, and I have more repairs in my store today than all the dealers in Rush county, and that proposition is for your convenience. See my line before you buy implements—Nothing out of date—Nothing shop worn—and Nothing but what you can always get repairs for. THAT'S WHAT YOU WANT and THAT'S WHAT I HAVE.

North Side Court House

AVERAGE VALUE IS REGARDED AS GOOD

Continued from Page One
of \$20.38 a hundred pounds. A total of 649 sheep listed by 14 assessors averaged \$10.50 a hundred pounds. Two hundred and ninety-two automobiles appraised by 22 assessors averaged \$352.07. Seventeen hundred and five horses listed by 22 assessors averaged \$97.82.

The low averages for some kinds of personal property are found in Noble, Ripley, Orange and Washington township. The average of \$78.50 for horses, 12 cents a pound for hogs and \$79 for household goods in Noble township is regarded as far too low. Household goods averaged only \$54 in Ripley township as compared with the county average of \$122.91. Three averages in Washington township are believed to be too low—horses \$82.60, tools \$92.38 and household goods, \$73.29. The township averages are as follows:

Posey

Horses \$85, cattle \$56.25, hogs, \$17.50 a hundred, sheep \$10.87 a hundred, automobiles \$250, tools \$155 household goods, \$115.

Rushville

Horses \$95, cattle \$87.2, hogs \$22, sheep \$10.25, automobiles \$412.40, tools \$20, household goods \$180.

Union

Horses \$92.25, cattle \$52.75, hogs \$18.25, sheep \$8.34, automobiles \$387, tools \$152, household goods \$130.

Anderson

Horses \$95.25, cattle \$60.65, hogs \$17.55, sheep \$10.25, automobiles \$325.75, tools \$215, household goods \$116.10.

Noble

Horses \$78.50, cattle \$54.50, hogs \$12, sheep \$10.50, automobiles \$348.50, tools \$120.25, household goods \$79.

Orange

Horses \$119.34, cattle \$57.34, hogs \$17.58, sheep \$10.12, automobiles \$298.50, tools \$139.48, household goods \$65.50.

Jackson

Horses \$116.75, cattle \$62.90, hogs \$22.75, sheep \$10, automobiles \$388, tools \$175.50, household goods \$171.

Walker

Horses \$112, cattle \$55.87, hogs \$18.12, sheep \$9.50, automobiles \$465, tools \$140.38, household goods \$83.75.

Ripley

Horses \$91.55, cattle \$56.05, hogs \$16.50, sheep \$10, automobiles \$204.25, tools \$125.88, household goods \$54.

Washington

Horses \$82.60, cattle \$59.95, hogs \$14.06, sheep \$12, automobiles \$308.55, tools \$92.38, household goods \$73.29.

Center

Horses \$131, cattle \$66.75, hogs \$19.80, sheep \$10.65, automobiles \$336, tools \$136.34, household goods \$144.91.

Richland

Horses \$97, cattle \$77.31, hogs \$17.38, sheep \$9.51, automobiles \$403.80, tools \$235, household goods \$93.75.

Madison, Ind., March 21.—Business men of Madison met today to organize a Rotary club. They were aided in the movement by the Indianapolis clubmen, who made the trip to Madison in a chartered car.

FIGHTING MEN WERE DISABLED IN CAMPS

Claims Show That a Very Small Percent Were Injured in Battle in Comparison to Camps.

CLAIMS BEING PRESENTED.

(By United Press.)

Washington, March, 21.—Claims presented to the War Risk Insurance Bureau by disabled soldiers show that only a small portion of them were disabled in battle compared with those remaining in camp.

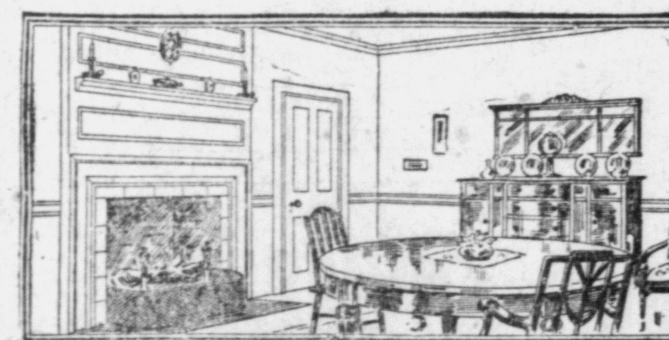

Of the first 6,396 claims sent into the bureau only one and three-tenths per cent—83 men—received their disabilities in battle, while 68.9 per cent were disabled in camp, either in this country or overseas.

This percentage will, of course, be greatly altered as the men, returning from France, turn in their claims, yet officials of the bureau predict that the majority of claims will come from men disabled while in training. As soldiers become more thoroughly trained in the methods of warfare and camp life, the danger of being disabled is lessened, it was pointed out.

Delicate Children Vinol is What They Need

More than eight thousand druggists recommend Vinol because it contains in deliciously palatable form the oldest and most famous reconstructive tonics known to medicine. During the last sixteen years it has brought health and happiness to thousands of puny, ailing, anaemic children.

HERE IS PROOF

Middletown, Conn.
"I used Vinol for my little girl five years old for a rundown, nervous condition. She was thin, irritable all the time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and strength and is much pleasanter."—Mrs. C. B. Wilkinson.

Manville, R.I.
"The whooping cough,—and later the measles left my little boy of eight years with no appetite, thin, frail, delicate and tired all the time. After everything else had failed Vinol gave him a hearty appetite, restored his strength and he is now as well as ever."—Mrs. James H. Hall.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Vinol Creates Strength

F. B. JOHNSON & CO., Druggists, and Druggists Everywhere.

SOY BEAN SEED AND VARIETIES TO GROW

Supply From 1918 Crop Reported
Less Than That of 1917.

Well for Buyer to Make Germination
Tests as Seed Loses Its Vitality
Quite Readily—Variety Is
of Importance.

(Prepared by the United States Department of Agriculture.)

As the supply of the 1918 crop of soy beans for seed is reported less than the 1917 crop, it is advisable at this time to look forward to supplies of seed of desirable varieties and prices. It is not likely that the prices will be much lower than at the present time. Undoubtedly much of the 1917 crop of seed will be sold this season. It is well for the buyer as well as the grower who has his own supply of seed to make germination tests. Soy bean seed loses its

Cultivating a Field of Soy Beans.

viability quite readily, and unless the seed is of the 1918 crop or has been properly cured and stored tests should be made to learn if the seed is of high germination.

The variety to be grown is of prime importance, and the grower should select one suited to his locality. The late varieties for forage or seed are best suited to southern conditions, although the Virginia and Haberlandt, both medium late varieties, have given most excellent results under southern conditions for seed, forage and pasture. The best late varieties are Biloxi, Mammoth Yellow and Tokyo.

PUT IMPLEMENTS IN REPAIR

Troublesome and Costly Delays May
Be Avoided by Getting Tools in
Working Order Early.

(Prepared by the United States Department of Agriculture.)

All users of farm implements should anticipate, so far as practicable, the necessity for repairs and replacements sufficiently in advance of the working season to make it possible to put their implements in good working condition before the spring operations begin. This is the gist of a telegram from the secretary of agriculture to E. W. McCullough of Chicago, secretary of the National Implement and Vehicle association. Secretary Houston's telegram was in response to one from Mr. McCullough advising him that manufacturers of and dealers in all lines of farm operating equipment have agreed, in the interest of economy and conservation, to join in urging farmers to inspect their equipment and to order necessary parts in advance of the time they are needed.

Manufacturers and dealers declare that if they can know sufficiently in advance the needs of the farmers for repair parts, these parts can be supplied when they are needed. If the needs are not known to the manufacturers and dealers until the actual time for use, troublesome and costly delays are likely to be caused—delays that may be felt in decreased production at harvest.

Make Us Prove It

Perkins & Matney

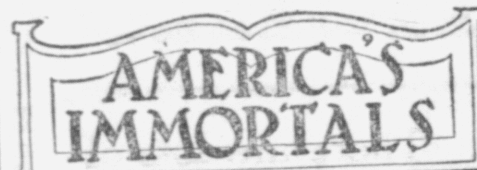

NEW SALEM, IND.

ing is to pick up a handful and close
the hand tightly on it. If the earth
falls apart when the hand is opened
it is dry enough for cultivation. This
test applies largely to fairly heavy
soils, but these are the soils that are
most liable to injury from working
them when too wet. Overzealous gardeners
waste time and actually do
harm on heavy soils by getting on
them too early.

MARKETING LETTUCE IN LOTS

When Sold in Barrels to Small Grocer
There Is Always Remnant or
Two Wilted.

Lettuce should be marketed if possible
in small packages. When sold in
barrels to small grocers there is nearly
always a remnant after a day or
two which is wilted and hard to sell.
Small packages are much better for
retailers with a limited trade because
they can sell a basket or two every
day and buy a fresh lot the next day.
This plan is better for producer, retailer
and consumer. It counts for
larger sales, larger prices and smaller
losses.

MARCELLUS H. CHILES,

Captain, 356th Infantry.

Capt. Chiles was decorated for
conspicuous bravery in action,
which resulted in his death near
Le Champy Bas, France, November
3, 1918. When his battalion,
of which he had just taken
command, was halted by
machine gun fire from the front
and left flank, Capt. Chiles
picked up the rifle of a dead soldier
and, calling on his men to
follow, led the advance across
a stream waist deep, in the face
of the machine gun fire. Upon
reaching the opposite bank, this
gallant officer was seriously
wounded in the abdomen by a
sniper, but before permitting
himself to be evacuated he made
complete arrangements for turning
over his command to the
next senior officer, and under
the inspiration of his fearless
leadership his battalion reached
its objective. Capt. Chiles died
shortly after reaching the hospital.
His home was at 2815
West Thirty-seventh street, Denver,
Colo.

Honor, and General Petain of the French army, who presented the medal.

DENIES STAFF SOUGHT PEACE

Hertling's Son Insists German High
Command Did Not Weaken.

A son of the late Count George F. von Hertling, former imperial chancellor of Germany, has published a denial of the allegation that the German imperial government was twice requested by the supreme command of the army to conclude peace while his father was holding office. He avers that he is conversant with all that took place at that time between the supreme military command and the government, and says that it is untrue that, either in May or August, 1918, did the general staff ask, or even hint, that peace was desired, or intimate that it was willing to renounce any of Germany's war aims in any way.

The General Anzeiger of Frankfurt, which prints the denial, adds that young Hertling is preparing a book in which full records of his father's activities will be set forth.

48 PER CENT DISCHARGED

Washington, Mar. 20—Demobilization of the division of military aeronautics up to March 6 had reached 48 per cent of the total of personnel, the war department announced today. The bureau of aircraft production had increased 94 per cent up to March 11, according to demobilization statistics.

NOTICE TO NON-RESIDENT. State of Indiana, Rush County. In the Rush Circuit Court, Feb. Term, 1919. George H. Sweet, Adm. of Estate of Dickson Sweet vs. Caroline Sweet et al.

Now comes the plaintiff, by Donald L. Smith, attorney, and files his complaint herein, together with an affidavit that the defendant Harry Negley is not a resident of the State of Indiana.

Notice is therefore hereby given said defendant, that unless he be and appear on the 15th day of May, 1919, at the Court House in the City of Rushville, Indiana, by the Cleveland, Cincinnati, Chicago and St. Louis Railroad, or Walker D. Hines, Director General of the Railroad for the United States Railroad Administration, now operating the Cleveland, Cincinnati, Chicago and St. Louis Railroad, either stationed by said Company or said Director General, or heretofore ordered stationed by the Common Council of the City of Rushville, Indiana, at any street crossing in said City of Rushville, Indiana, shall be required to attend to their duties as such watchmen or flagmen from the hour of 9 a. m. until 6 p. m.

Section 2—This ordinance shall be in force from and after its passage.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

A. B. IRVIN, Mayor.

Attest: Earl E. Osborne, Clerk.

Mar 21-28-Apr 4

ORDINANCE NO. 326.

An ordinance fixing the time during which watchmen stationed at street crossings in the City of Rushville, Indiana, by the Cleveland, Cincinnati, Chicago and St. Louis Railroad, or Walker D. Hines, Director General of the Railroad for the United States Railroad Administration, now operating the Cleveland, Cincinnati, Chicago and St. Louis Railroad, either stationed by said Company or said Director General, or heretofore ordered stationed by the Common Council of the City of Rushville, Indiana, at any street crossing in said City of Rushville, Indiana, shall be required to attend to their duties as such watchmen or flagmen from the hour of 9 a. m. until 6 p. m.

Section 2—This ordinance shall be in force from and after its passage.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

A. B. IRVIN, Mayor.

Attest: Earl E. Osborne, Clerk.

Mar 21-28-Apr 4

ORDINANCE NO. 324.

An ordinance requiring the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad to erect and maintain automatic crossing alarm bells at certain crossings within the City of Rushville, Indiana, and repealing Section No. 1, of Ordinance No. 121, passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the twenty-first (21st) day of January, 1902, and Ordinance No. 163, passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the nineteenth (19th) day of September, 1905.

Section No. 1—Be it ordained by the Common Council of the City of Rushville, Indiana, that the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad be and the same is hereby required to erect and maintain automatic crossing alarm bells at the intersection of its tracks on each of the following streets, to-wit: Third street, Jackson street, Fifth street, Harrison street, Seventh street, Main street, Eighth street and Perkins street.

Section No. 2—Section one of Ordinance No. 121 passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the twenty-first (21st) day of January, 1902, and Ordinance No. 163, passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the nineteenth (19th) day of September, 1905, are hereby repealed.

Section No. 3—Any person, corporation or railroad company violating any of the provisions of this ordinance shall be fined in any sum not exceeding the sum of one hundred dollars.

Section No. 4—This ordinance shall be in effect from and after its passage and publication as required by law.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

A. B. IRVIN, Mayor.

Attest: Earl E. Osborne, City Clerk.

Mar 21-28-Apr 4

ORDINANCE NO. 325

An ordinance fixing the time during which watchmen stationed at street crossings in the City of Rushville, Indiana, by the Cincinnati, Indianapolis and Western Railroad Company or

Walker D. Hines, Director General of the Railroad for the United States Railroad Administration shall, attend to their duties.

Section 1—Be it ordained by the Common Council of the City of Rushville, Indiana, that from and after the passage of this Ordinance all watchmen employed by the Cincinnati, Indianapolis and Western Railroad Company or Walker D. Hines, Director General of the Railroad for the United States Railroad Administration, now operating the Cincinnati, Indianapolis and Western Railroad, either stationed by said Company or said Director General, or heretofore ordered stationed by the Common Council of the City of Rushville, Indiana, at any street crossing in said City of Rushville, Indiana, shall be required to attend to their duties as such watchmen or flagmen from the hour of 8 a. m. until 5 p. m.

Section 2—This ordinance shall be in force from and after its passage.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

A. B. IRVIN, Mayor.

Attest: Earl E. Osborne, Clerk.

Mar 21-28-Apr 4

FATAL DRIVE WAS BEGUN A YEAR AGO

Germany's Defeat Dated From Mar. 21, 1918 at Beginning of West Front Offensive

OUTRAN MAN POWER SUPPLY

Huns Weakened Themselves by Undertaking to Capture the Channel Ports

By J. W. T. MASON
(Written for United Press.)

New York, March 21.—Germany's irretrievable defeat in the world war began one year ago today when the army of the Hohenzollerns started their major offensive along the West front, and outran their supply of man power.

A year's perspective of Von Hindenburg's gamble shows with indubitable clearness that the German

strategy was fundamentally wrong, and by no possibility could have won the war. When the kaiser's armies started for the channel ports, 12 months ago, they deliberately set forth to reduce their own strength, at a time when America's millions were speeding overseas to reinforce the allies.

Never in the history of warfare has a greater mistake than this been committed. Had the Germans reached the channel they would at most have succeeded in prolonging the war for a few months. They couldn't have defeated the American armies by the channel drive, because the American armies were not there. And, with the American armies in being, any success of Von Hindenburg could have remained only a temporary affair.

What Von Hindenburg did by his March offensive was to carry his battlefield so far from Germany that he could not get back. Von Hindenburg was defeated in France, somewhat after the basic manner of Napoleon's defeat in Russia. Napoleon rushed too far into the enemy's country, and so did Von Hindenburg.

The changes in methods of warfare during the intervening century made a trespass of a mile as dangerous to Von Hindenburg as a 20-mile trespass to Napoleon.

Why Von Hindenburg attempted his futile advance is a matter that concerns Germany's insane war mentality. The persistent error of the German military leaders throughout the war was their refusal to remain inactive. They had a gambler's passion for the initiative. This may be fruitful when the odds are not heavily in the enemy's favor. But it becomes suicidal when continued in the face of such odds as America's entrance into the war gave to the allies. Von Hindenburg's essential lack of genius was demonstrated by his refusal to enter upon a complete defensive immediately it became apparent, as it did last winter, that the United States intended pouring into Europe as many million troops as were needed to win the war.

Had Von Hindenburg held fast to his original Western front, he would have had between a million and a half more men at his disposal than were finally left when the American offensive began. The result would have been greatly increased allied losses, and upon Germany's ultimate surrender, a much larger salvage of German man power than now exists. But Von Hindenburg played for no middle course. The Germans had been taught to think only in terms of victory, and with that gone they had no ability to compromise their losses. Arrogance without moderating influences; offensive talents without versatility in defense—these they had in large measure. But vision and an understanding of the minds of men were far from them, and at no other time were so fatally absent as a year ago today.

You Are Always Welcome

We want you to come and look around—visit all our departments at any time—but particularly during

The Automobile Show

People in towns and in the surrounding country near Rushville will find this store offers the current attractions of any of the larger City stores. We are proud of Rushville, and we intend that the people of Rush and surrounding Counties shall find here the very things they might look for far away.

We Are In Close Touch With All Markets

A style thought is scarcely evolved before we know of it and orders are filed. Residents of Rush county and towns outside of the County convenient to Rushville by Traction or trains will find it pays to visit our store instead of making longer and costlier trips—or sending far away—for the doubtful pleasure of paying a higher price for identical things, whether garments or other goods.

Nervousness and Headaches Caused by Acid-Stomach

There is a much closer connection between the stomach and brain than most people imagine. It is because of this close connection that indigestion, belching, sour, gassy stomach and other stomach miseries—all of which are sure signs of acid stomach—are so often followed by severe attacks of blinding, splitting headaches.

Nervousness, sleeplessness, irritability, mental depression, melancholia and many other disorders which affect the brain can also nearly always be traced to the same source—acid-stomach.

So often you hear people say "I am so nervous I think I'll fly to pieces;" or "It seems I never get a good night's sleep any more, my nerves are all on edge." Little do they dream that acid stomach is the direct cause of their troubles because very often there are no pains in the stomach at all. So you see, you can't always judge an acid-stomach condition by the way your stomach, itself, feels.

If you are weak, nervous, unfit—if you are not up to your old time form—if you lack your accustomed enthusiasm, energy and pep—make this test and see if it isn't acid-stomach that is holding you back—robbing you of your health, strength and vigor. Get a big box of EATONIC—the wonderful modern medicine that so quickly puts an acid stomach to rights. It is in the form of pleasant tasting tablets that you eat like a bit of candy. EATONIC rids the stomach of excess

acid. Brings instant relief from indigestion, heartburn, sour belching, food repeating, bloating and gas and makes the stomach cool, pure, sweet and comfortable.

Dentists warn us against the bad effects of acid mouth, pointing out that the acid eats through the enamel of the teeth, causing them to decay. You can easily imagine then the amount of damage excess acid will cause to the delicate organization of the stomach!

Thousands of people are using EATONIC and the results obtained are so remarkable as to be almost unbelievable. Yet their letters of gratitude, many of which are received daily, prove absolutely that EATONIC does all and even more than we claim. The medical profession, too, recognizes the great value of this wonderful remedy. A learned Michigan doctor wrote recently: "I have had such wonderful success with EATONIC that I want every one to know how quickly it will neutralize the acidity of the stomach (acid-stomach) and the stomach will soon be sweet and normal again, and the sick man well and happy once more."

So be sure to get a big box of EATONIC from your druggist today. If it fails in any way to give you the kind of satisfaction you want, take it back—he will refund your money. He doesn't want one penny of your money unless EATONIC helps you.

EATONIC
FOR YOUR ACID-STOMACH

MAORIS DEVELOP BIG APPETITE FOR MOVIES

Their Appetite For Them Calls For Them on Screen Rather Than Boiled Ready to Eat.

MANY FILMS BEING SHOWN

(By United Press.)

Los Angeles, Cal., March 21.—New Zealand Maoris, native Japanese and the cannibals of the south sea islands have developed a ravenous appetite for the American movie star.

Their appetite, however, doesn't crave blood. They want them on the screen. It is going to take a fourth of the 700 miles of film to be manufactured here in 1919, to satisfy this appetite, distributors estimate.

In the last few years the American movie has won its place in the far corners of the South Sea, in China, Korea and the Federated Malay States.

"The New Zealand Maoris" (who cannot read or write a word beyond their native jargon) writes Frank Boyd in a survey of the field, "insist on giving their screen favorites advice as to how to avoid impending danger. When their favorite finally triumphs, they give vent to lusty cheers."

When "Tess of the Storm Country" was played at Rotorua, Boyd was the only person in the house who could read the subtitles. But near-barbarians could read the language of the pictures and received it "by standing on their chairs at the finish and cheering in their native language."

Comedy of the better variety rules a favorite in the South Seas.

Few of the inhabited corners of the South Seas and Orient are without their movie houses. The more enterprising natives oftentimes are the proprietors.

PLANS RESUMPTION COMMERCIAL WARFARE

German Business Prepares to Take up Trade Fight When Allied Blockade is Lifted

GOVERNMENT WILL ASSIST

(By United Press.)

Washington, March 21.—German business plans the resumption of commerce warfare immediately upon removal of the allied blockade, official advices from Stockholm to the bureau of foreign and domestic commerce announced today.

German boards of trade are urging upon their members the importance of making German goods of such quality and prices as cannot be excelled by any foreign manufacture, it was announced.

Money has been set aside by the Prussian government for financial trade and scientific expeditions abroad.

AVERAGE VALUE IS REGARDED AS GOOD

Four Assessors List Some Items of
Personal Property Too Low,
County Report Shows

IT COVERS FIRST TWO WEEKS

Township Officials Will be Warned
at Conference Tomorrow to Keep
Appraisements High

With the exception of four assessors who have listed some items of personal property lower than they should be, the general average of the valuation placed on this class of property during the first two weeks of the assessing period is regarded as meeting the requirements of the new state tax law, according to the report which Earl Priest, county assessor, has just admitted to the state tax commissioners.

Although Mr. Priest has made no general canvass of the real estate valuations, because no report has been requested on this phase of the work, he says that in the townships where the assessors have reported to him, real estate and improvements will average about \$150 an acre.

If the county maintains this average on real estate, the assessed valuation will be three times as high as four years ago when the average by townships ranged from \$40 to \$50 an acre. It is not believed any reassessment or raised valuations would be in order from the state tax commissioners if Rush county real estate and improvements averages \$150 an acre.

The assessors find that the majority of taxpayers so far solicited approve the new tax law. Most of the disapproval of the law is due to a misunderstanding of its provisions. Assessors report that most people believe that the statute will more nearly distribute the taxation burdens than the old method of valuing property.

The assessors have met with little difficulty because of the agitation started a few days ago by an Indianapolis attorney who said that the new tax law was not legal for this year's assessment because it was not effective until March 12, when signed by the governor. His contention was that it should have been a law March 1, the date when the appraisal of property starts, in order to be effective. The assessors here, however, are going ahead with their work on advice of the state tax board, and it is understood that the attorney general, when the question is formally submitted to him, will hold that the appraisal of property under the new law is legal.

When the township assessors hold their conference here tomorrow, they will be warned by the county assessor to keep up their appraisal values. The assessors who have taken some items of personal property too low, will be urged to bring their appraisements up to the average because if they do not, the state board may order a reassessment or increase the valuation equally for the whole township.

From the following it will be seen that the county average for personal property is good:

Appraisal of tools owned by 317 farmers, taken from 19 assessors sheets, average \$161.22 for each taxpayer. The average for the household goods of 580 taxpayers assessed by 23 assessors, was \$122.19. A total of 1,683 cattle listed by 21 assessors averaged \$62.25 a head. Twenty assessors appraised 9,834 hogs at an average

RE-ELECT OLD OFFICERS.

The Building and Loan Association No. 10 re-elected all of its former officers last night in a called meeting for the election of new officers for this year. The association also celebrated its thirtieth anniversary at that time.

REPRESENTED IN CHICAGO

Rush County Liberty Loan Workers
Attend Conference Today

Rush county was represented today at the Liberty loan conference of the seventh federal reserve district at Chicago, by four members of the county organization. Earl H. Payne, county chairman, and Judge Will M. Sparks and T. M. Green, Rushville township and county directors of sales, went to Chicago last night to be present for the conference. Theodore L. Heeb, secretary of the county loan committee, went to Chicago Wednesday night and expected to attend today. Carter Glass, secretary of the treasury is to speak at a banquet tonight at 6:30.

AUTO SHOW DRAWS TO A CLOSE TODAY

Last Event in Connection With First
Exhibit Ever Attempted Here
Will be Dance Tonight

AN UNQUALIFIED SUCCESS

The first automobile show ever attempted by Rushville dealers ended this afternoon and was pronounced by them to be an unqualified success. The closing event in connection with the show will be a dance in the Modern Appliance building tonight, when the automobile will be removed and the floor prepared for dancing. The five-piece jazz orchestra from Franklin which has been playing during the show, will provide music for the dance.

The building was crowded with people all yesterday afternoon and last night until after nine o'clock, and the attendance this afternoon was expected to be greater than yesterday, with the continuance of favorable weather.

All of the dealers are immensely pleased with the show and say that many people have been interested in automobiles because of the display having been held.

A mistake was made yesterday in enumerating the cars exhibited by Joe Clark. His display consists of a Hammobile five passenger touring and three passenger closed car, a Franklin sedan and five passenger touring, and a Dodge five passenger touring and runabout.

FEE FOR RECORDING DISCHARGES LEGAL

Bill Allowing Soldiers This Privilege
Fails to Pass in Last Session
of Legislature

LAW MAKES IT COMPULSORY

A bill introduced in the last legislature providing that soldiers discharges could be recorded free, did not become a law, it has been learned here, and the regular fee of fifty cents will be charged for recording such papers. It was announced from the office of the secretary of state that the discharges would be recorded free of charge, but the county recorder here received no word to that effect and continued to charge a fee of fifty cents for recording the discharges.

There has been much controversy as to the manner in which the recording should have been done but since the bill failed to become a law, it is compulsory for the recorder to charge a fee of fifty cents for recording the soldiers papers. It has been announced that Adjutant General Smith has issued a statement to the effect that it is not necessary for the soldiers to record their discharges in their respective counties, as all are recorded in the War department at Washington, D. C.

MOTOR PLANT IS PLAN FOR MUNCIE

General Motors Corporation of Detroit Buys Interstate Plant and 40 Acres Adjoining

ADDITION TO BE ERECTED

Expected to be one of Largest Automobile and Automobile Parts Concerns in America

(By United Press.)

Muncie, Ind., Mar. 21.—Official announcement was made here today that the General Motors corporation of Detroit had bought the Interstate automobile plant here and also 40 acres of ground adjoining, on which an addition will be erected to make out of the largest automobile and automobile parts concerns in the United States.

The deal for the Interstate plant and the proposed new factory was directed by Thomas W. Warner, owner of the T. W. Warner Auto Parts Company here, and of a similar concern in Toledo. Mr. Warner is also one of the stockholders and an officer of the General Motors Company. He formerly lived in this city, where he founded the Warner Gear Company.

Negotiations for the purchase have been conducted for several weeks and were completed last night when the United States government arranged payment of a large sum of money, said to be about \$2,000,000, which it owed the Interstate Company on war orders. It was supposed that the T. W. Warner plant would be a part of the new deal, but an authorized statement of the General Motors Company merely says that this factory will co-operate with the General Motors, but says nothing about having been bought.

The company refused to say in its statement as to whether it will manufacture tractors, trucks, pleasure cars or automobile parts in its Muncie plant. The General Motors Company is a parent corporation to the Buick, Cadillac, Oakland, Olds, Scripps-Booth, Chevrolet, General Motors Truck, Chevrolet of Canada, Warner of Toledo, Remy Electric, Hyatt Roller Bearing, New Department Manufacturing, Harrison Radiator and several other smaller companies.

D. O. Skilleen, secretary and treasurer of the T. W. Warner Company, who was authorized to make public the statement of the conclusion of the deal, said that when the proposed new factory is in operation he believes it will increase the city's population not less than 25,000. In anticipation of the deal going through real estate agents and speculators have for several weeks been obtaining options on tracts of land, business blocks, dwellings and ground near the site of the proposed factory.

The statement made today makes no mention as to the amount of consideration given for the Interstate plant, but says that its factories will be used as a nucleus for the greater plant. Ball Brothers, the Muncie fruit jar manufacturers, are said to have been heavy stockholders in the Inter-State company.

FOUND DEAD UNDER AUTO.

Indianapolis, Ind., Mar. 21.—Arnold Wiggins, 1136 North LaSalle street, was found dead today under an automobile truck at the W. J. Holliday & Co. garage, 317 West Chesapeake street, where he was employed at night. Death is believed to have resulted from an attack of heart disease.

FORCED TO EVACUATE

(By United Press.)
Helsingfors, Mar. 21.—The Bolsheviks have been forced to evacuate two important cities, abandoning great quantities of munition, a newspaper declared today.

HUNS MAY REFUSE TO ACCEPT TERMS

British are Considering This Possibility and Preparing for Any Eventualities.

COLONEL HOUSE IS QUOTED

Says Peace Treaty, Including League of Nations Clause, Will be Ready by March 29.

(By United Press.)

London, Mar. 21.—The Paris correspondent of a news agency today quoted Col. House as follows: "The peace treaty, including the league of nations clauses, will be ready March 29. The Germans should be in Versailles within three weeks."

Copenhagen, Mar. 21.—The German national assembly has voted in favor of incorporating German-Austria in Germany, it was announced in a Weimar dispatch today.

The reported action of the assembly has created a serious situation as dispatches from Paris agreed the allies are opposed to the proposed union.

London, Mar. 21.—The storm of indignation from the Italian and French press at the suggestion of the British admiralty that interned German war ships should be sunk, is not disturbing the British. If the Italians and French will not agree to the proposal Great Britain is willing to divide the ships but will sink her portion. Utilization of the ships has been discussed by the British but is considered impracticable.

Paris, Mar. 21.—British officials are considering the possibility that Germany may refuse to accept the terms of the preliminary treaty, it was learned from reliable sources today. They believe there is real danger that the enemy will throw up their hands and say, "Do what you like."

The American delegates have received their first report from William Bullitt, who left for Russia several days ago to investigate conditions under the Bolshevik regime. He is enroute to Paris and is expected to be able to throw considerable light on the situation, which will be considered as soon as the preliminary peace with Germany is disposed.

Paris, Mar. 21.—Recommendation by the neutrals were believed today to have greatly clarified the league of nations situation, increasing the possibility of reaching a complete agreement on the revised covenant by tomorrow.

The most important suggestion made at yesterday's conference with the neutrals report was that of a Swiss delegate, who submitted a memorandum that is expected to eliminate objections in certain American quarters to non-inclusion of the Monroe Doctrine.

The Swiss urged continued recognition of the declaration of 1815, whereby the great powers proclaim the neutrality and inviolability of Switzerland from foreign influence, in the general interest of the politics of the whole of Europe.

Ending over a month's deadlock, the commission on labor legislation has agreed on the machinery for an international labor bureau under the league of nations.

A compromise was reached late yesterday, adjusting the difference between the United States and Japan. Legislation initiated by the bureau will be submitted to the various governments from individual acceptance.

U-BOATS TO BE DELIVERED

Basel, Mar. 21.—Ten German submarines, which are to be delivered to the entente powers, have left Hamburg, according to a dispatch received here.

REVOLT IS REAWAKENING

Socialist Leaders Are Arrested in Neighborhood of Munich.

(By United Press.)

Zurich, Mar. 21.—The revolutionary movement is reawakening in the neighborhood of Munich, dispatches from Bavarian socialists reported today. Many independent socialist leaders and revolutionary soldiers have been arrested.

Paris, Mar. 21.—The German authorities here reported today to have handed General Dupont, of the French army a memorandum in which they refuse to allow Polish troops to land at Danzig enroute home. A French newspaper, discussing this action by the army, declares it is a violation of the armistice.

EACH MEMBER OWNER OF A DOG, IS REPORT

Some Families Claim That Tax
Should Not be so High as
Each Owns Canine

SCHEME CAN NOT BE WORKED

Some of the tax assessors in this county report attempts at sharp practice at homes where they find more than one dog that is subject to taxation. The new law requires that where more than one dog is found at a home, the additional ones must be assessed at five dollars each. In a desperate effort to defeat this law some of the taxpayers claim that each member of the family owns one dog found in the home, providing of course, that there are as many members of the family as there are dogs and vice versa, and some of the assessors report that some of the owners of the dogs are only a few days old.

This practice is not permitted, however, under the new law, which provides that all dogs found in the home must be assessed against the householder. The assessors records of this county show that as many as seven dogs have been assessed in one home and if there are any such found this year the owners will find that their herds of canines are mighty expensive luxuries. Taxes must be paid on dogs at the rate of \$3 for the first one, male or spayed, and five dollars each for all over one, \$5 for all females. Dog taxes unpaid the first of May will subject the owners to prosecution.

COMMITTEE ON WAR INVESTIGATION NEED

Rep. Kahn, Who is in France Inquiring Into European Military Systems, Makes Statement.

INVESTIGATE WAR STORIES

(By United Press.)

Paris, Mar. 21.—"I think we should have a committee on general investigation of the war," Congressman Kahn, chairman of the house military committee, said today.

Kahn came to Europe to investigate the military system of France, Great Britain, Switzerland and Belgium. He will also confer with General Pershing. He said he intends to investigate the report that American soldiers were needlessly sacrificed and that he is especially interested in the stories of men being sent into battle just an hour before the armistice became effective.

The congressman said he believed a standing army of 150,000 or 200,000 will be sufficient for the United States if universal training is adopted.

HOMEMADE BREWS ARE COMMON HERE

Humble Raisin, Commonplace Yeast and Ordinary Malt Extract Assume a New Dignity

PREPARATIONS ON MARKET

Demand For Hops so Great That
Local Druggists Can Not Keep
A Supply on Hands

With the passing of old "John Barleycorn," many and varied are the substitutes being used by Rush county men who want something with a "kick in it." The humble raisin is coming into its own in the homemade mixing of the festive cocktail and the commonplace yeast and ordinary malt extract and hops have assumed a new dignity.

In fact, local druggists report such a demand for hops that they are unable to keep a supply on hands and have found it impossible to buy any more. Malt extract, which was formerly sold only for medicinal purposes, is in great demand and some druggists have even sold all which they had in stock.

With just what attitude officials will regard the use of the homemade drinks is not yet determined, because they have not come into such general use as to receive the attention of officialdom. Knowing ones say that a householder who brews for himself more than the legal amount of beer will be violating the state prohibition law and will be subject to a fine and jail sentence.

To keep apace with the times, one local druggist has ordered a solid preparation known as "Malthop," which, if the directions are carefully followed, will produce, when certain common ingredients are added, a "most delicious" healthy and nourishing beverage," according to the advertisements. Druggists estimate that none of the homemade drinks will average over four percent alcohol.

The company which offers malt-hop for sale, advertises several different brands which the buyer may choose, according to his tastes. There's the Braumeister extract, Braumeister Porter extract, Braumeister Muenchener, Braumeister Bock and Braumeister Pilsener.

To produce the drink with malt-hop, it is necessary to dissolve two pounds of brown sugar in a gallon of boiling water, boil five minutes and strain through cheesecloth into a six-gallon container. Hops left in the cheesecloth should be boiled in another gallon of water five minutes and strained as before into the container.

The home brewer must then add and dissolve two pounds (amount depends on taste) of granulated sugar, and then add four gallons of water which should have a temperature to make the brew lukewarm. A half cake of compressed yeast should then be dissolved in a cup of lukewarm water, added to sugar and then to brew, which should be lukewarm or 85 degrees F. The yeast must not be added while the brew is hot.

The next step is to cover the brew well, stand it in a warm even temperature near 80 degrees for 48 hours. If warmer, the time should be shorter; if cooler, up to 60 hours. The top of the yeast should be skimmed off and bottled in clean bottles with patent stoppers, and corked tightly. In bottling, be careful not to disturb the yeast in the bottom of the containers, say the instructions. The bottles should be placed in the same warm temperature for 24 hours and then placed in cellar or any cool place with even temperature.

"In about a week or ten days," take is from the manufacturer, "it is ready to drink, will then foam readily, will greatly improve with

MINERS VOTING ON QUESTION OF STRIKE

Expected to Reject Proposal of Government Which Does Not Meet All Their Demands

WANT MINES NATIONALIZED

(By United Press.)

London, Mar. 21.—British miners are voting this afternoon on the issue that will decide whether the country is to be plunged into an industrial war. The government compromise offer, on which the ballot is being taken, concedes the miners shorter hours and higher wages, but defers decision regarding nationalization of mines.

The miners are demanding that nationalization be taken at once.

Robert Smillie, head of the miners, just before reading the government's offer to the meeting, announced that "the situation is critical." If the miners reject the proposal, they will go on strike tomorrow, as voted several weeks ago.

Railroad men and transport workers are expected to join them, threatening paralyzation of British industry.

Even though it took four months—a Red Cross searcher on the other side managed to locate one wounded Yank whose family were worrying about him. As he was being carried abroad the transport at Liverpool, the searcher ran up and greeted him by name.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

HOME MANAGERS RESIGN

Muncie, Ind., Mar. 21.—Mr. and Mrs. W. W. Gleason, for several years managers of the Delaware County Children's home, resigned yesterday following a controversy with the county board of children's guardians over alleged ill-treatment of children in the institution. Mr. and Mrs. Gleason denied rumors to this effect, but resigned, they said, merely to keep down further controversy.

Don't take a chance with Jack Frost. If uncertain of his probable last appearance consult experienced gardeners or the nearest Weather Bureau station.

SCOURS IN PIGS ARE DUE TO OVERFEEDING

County Agent Detrick Says Two to Four Ounces of Limewater Daily Will Help.

SHOULD BE GIVEN PROMPTLY

At this time of the year scours in pigs cause a great deal of trouble. The trouble is commonly due to overfeeding the mother. This stimulates a large milk flow and the greedy little fellows trying to consume too much soon have digestive troubles.

"Remove the cause," says County Agent Detrick, "by cutting down the feed. From two to four ounces of limewater added to the feed of the mother once or twice daily will aid in overcoming the trouble. When pigs are old enough to eat they may be given a teaspoonful each daily. A piece of stone of stone line half the size of ones first slaked in a quart of water, and kept handy may save lots of trouble. The treatment is more effective when administered promptly after the trouble is noticed than when delayed. When light laxative rationals like wheat middlings and ground oats are fed for a week before farrowing and for ten days after farrowing and dry comfortable quarters are provided, the danger can be reduced. When the little fellows are two weeks old it is usually safe to feed the sow all she will clean up, provided the pigs are getting a reasonable amount of exercise."

FORMER SENATOR SCORES DEMOCRATS

Joseph W. Bailey of Texas Bemoans "Passing of Constitution and Liberty" in Newark Speech

IS AGAINST HIGH TAXATION

Newark, N. J., Mar. 21.—Asserting that the Democratic party has "ceased to support Democratic principles," former United States Senator Joseph W. Bailey, of Texas, declared in an address here tonight that he would never again vote for the candidate of any party which constantly reduces our liberty and unnecessarily increases our taxes.

"Since Thomas Jefferson founded it, the Democratic party has always insisted that every state should exclusively control the local affairs of its own people, but a Democratic congress insinuated that time honored doctrine upon the altar of national prohibition and a majority voted to repeat the sacrifice in behalf of woman suffrage."

Declaring the Constitution is now regarded as "an obsolete scrap of paper," he added:

"In this day they tell us that it is better to be good than it is to be free, and they have multiplied our penal statutes until the lawyers can not carry even an index of them in their minds."

"We have restricted the rights of men until no civilized country on the globe interferes with the habits, the pleasures and the business of its people as much as this free government of the United States."

IN STATE OF COMA

Ladoga, Ind., March 21.—Bert Fraime, age thirty-five, a farmer, has been in a state of coma for a week as the result of an attack of sleeping sickness. It is the first case of the new disease to be reported in Ladoga. Fraime recently had influenza.

OFFERS SUBSTITUTE FOR LEAGUE COVENANT

Senator King, Utah, Says His Plan, to be Submitted to Wilson, Protects Monroe Doctrine

WILL GO TO PARIS SHORTLY

(By United Press.)

Washington, Mar. 21.—Senator King, Utah, has prepared a substitute league of nations covenant which he will send to President Wilson in Paris, he announced today.

King's plan, he said, will protect the Monroe Doctrine. Each nation is to decide its own policy on immigration, tariff and similar matters, and permit withdrawal of any nation from the league on one year's notice. King's draft also greatly reduces the number of words taken to outline the compact.

King announced he probably would go to Paris in a short time. If he does it is expected he will discuss his substitute plan with President Wilson, unless the peace conference in the meantime takes definite action on the league of nations.

NEWCASTLE WOMAN DIES IN 100TH YEAR

Mrs. Charlotte Misener, Who Moved to Henry County in 1849, Remembered Events Clearly

SON AND DAUGHTER SURVIVE

Newcastle, Ind., March 21.—Mrs. Charlotte Misener, in her one-hundredth year, died of the infirmities of age at her home here Thursday. She celebrated her ninety-ninth birthday anniversary on January 28, and was the oldest woman in Henry county.

Born in Pennsylvania on January 28, 1820, Mrs. Misener came here in 1849. Her husband was Jonathan Misener, who died years ago. All through her long years Mrs. Misener's memory remained clear, and she often recalled incidents of the early history of Newcastle.

Surviving are two children, Henry Misener and Mrs. Elizabeth May, both of this city.

Rome, Mar. 21.—The American command in France was reported today to have offered to sell Italy its entire telegraph equipment. Signor Farn, minister of posts and telegraphs, is said to have accepted the offer.

FINISH PLAT BOOKS

George Audtman, Rushville township assessor, announced today that the appraisal of real estate would be started in a few days in this township. The deputies in charge of this work, John Joyce and John A. Jones, have been busy preparing their plat books.

GRAND JURY TO ADJOURN.

The grand jury was expected to adjourn today after having been in session most of this week and part of last week. A number of persons from Milroy again testified today, indicating that a thorough investigation of some character is being made there.

1,500,000 French Killed

An Atlantic Port.—France in four years of conflict to preserve her own liberty and that of the world, according to Andre Tardie, French high commissioner to the United States, has lost 1,500,000 men killed and as many wounded. America owes France an enormous debt of gratitude for this heroic outpouring of her life's blood and also for the reported saving of thousands of lives in this country and throughout the world through the discovery by French peasants of a perfect remedy for stomach, liver and intestinal ailments which, it is said, has relieved incalculable suffering and prevented thousands of surgical operations. Geo. H. Mayr, prominent Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For Sale by Druggists Everywhere.—(Adv.)

Dr. Alexander of Clarksburg escaped with only a few scratches when his automobile in which he was driving upset. The car was slightly damaged but he was able to drive back to Clarksburg.

Mr. and Mrs. Vern Lewis attended the Stiers sale near Mays Wednesday and from there motored to Dunreith, where they saw two large tanks that were used in France in the war against Germany. They were being shipped to St. Louis.

DENOUNCES PEOPLE WHO ARE 'TWO-FACED'

Evangelist Devotes Himself to Those Who Attempt to "Carry Water on Both Shoulders"

REVIVAL WILL CLOSE SUNDAY

Evangelist Miller delivered a scathing denunciation of "two-faced" people who attempt to "carry water on both shoulders," at the revival services at St. Paul's M. E. church last night, using as his topic "Decision," from the text, First Kings, 18-21, "How long halt ye between two opinions."

Mr. Miller announced his sermon subject for tonight as "Knocking" which is expected to be somewhat interesting if not a bit sensational. The music by the chorus choir, led by the Rev. Clyde S. Black, last night was up to the standard set at previous services. There will also be special music on the program tonight. Despite the many counter attractions, a large and attentive audience was present last night and interest in the meetings continues unabated.

Delegations from Milroy and Connersville are expected at the meeting tonight. The revival will close Sunday, which is expected to be the climax of the series of protracted meetings. Scores are reported to have responded to the appeal of the evangelist and the number is expected to be doubled tonight and Sunday.

BILL DOES NOT AFFECT RUSH COUNTY SHERIFF

Legalizes the Payment of Board for Prisoners at Rate of 60 Cents Per Day

TRAVELING RATE RAISED

The bill passed by the recent legislature and signed by the governor, giving sheriffs 60 cents a day for boarding prisoners, or 20 cents a meal, does not affect the sheriff of Rush county, except to legalize the payment of money for prisoners board at this rate of pay. Since October 1917, the sheriff here had been receiving 60 cents per day for boarding prisoners, and reports that he would receive an additional salary of \$1,000 as the result of the new law are unfounded, as seen from the facts. The increase was authorized by the state board of accounts, providing the commissioners would allow it, because of the increased cost of foodstuffs.

Another bill affecting the sheriff's office was that allowing five cents a mile for taking sentenced prisoners to penal institutions. Since the railroad administration raised the rate to three cents a mile, the sheriff by authority of the state board of accounts, have been charging four cents a mile and adding the war tax to the bill. The new rate just about lets the sheriff break even and unless he is very careful he cannot make the trip at this rate.

Utilities.
A few months ago, among a group of towns in one of the northern states, the type of service being rendered by the local railroads created an acute situation. Freight charges were exorbitant and deliveries nearly always a matter of speculation.

The cause of the disease suggested the cure. A few opportunists got together, put up some money, and started operating a motor truck service among the towns. The different communities were inter-dependent and welcomed the new enterprise as Elijah welcomed the ravens. Consignments of goods began reaching the consignees on time. People with something to sell were no longer afraid of promising delivery before the end of the next war. Both in rates and speed the truck service competed successfully with the railroads. Everything was lovely.

It was altogether too lovely for the politicians. Politicians never want things to be lovely. They can't pose as saviors when no one is asking to be saved. They can't agitate for reforms when nobody can name anything needing reformation.

No the professional patriots reached the verdict that the truck service was too aggressively useful. It was, in fact, a utility. And utilities are things which must always be taken from the people who manage them properly and be run by professional elocutionists who don't know how to run anything, from a lathe to a cigar stand.

Accordingly they demanded legislation to regulate the service, and tell it what it could and couldn't do—particularly what it couldn't. And

ALL WRONG

The Mistake is Made by Many
Rushville Citizens

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

A Rushville resident tells you how.

Frank McFarland, 530 W. Tenth St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in terrible shape. It ached so, especially at night that I could hardly sleep. Mornings my back was so stiff that when I bent over, I could hardly straighten again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good results, I thought I would try them, so I got a box at Johnson's Drug Store. They helped me right away and I kept on using them until I was cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. (Adv.)

the truck system—which once satisfied everybody—seems in a fair way to die from overdoses of legislation—just like the railroads.

Anything that everybody finds useful is a utility, and as much is pie for politicians. If you ever invent a new way of using mineral produce or preserving foodstuffs, or conserving energy, or developing motive power from the tides or solar heat or anything else, don't do it too well. At least, don't do it well enough to make it useful to everybody.

Life was less complex in the day when it challenged each man to do the best he could. We must learn a greater precision, now that the art of living consists in doing one's work just badly enough to escape being forbidden to do it at all.

The folks who complain of the high rate of fire insurance commonly include a lot who keep their ashes in wooden barrels.

A lot of people who kick because printed matter costs high, throw away all their waste paper and thus help make paper stock scarce.

If some people would keep their mouths shut a larger portion of the time, there would be less danger of their swallowing the "flu" germs.

The dear girl who appeals so pitifully for sympathy for her racking cough, is often the same one who puts on her extra low-cut waist in cold weather.

"Button, button, who's got the button?" We learn that few buttons have been made here since the United States entered the war and that the supply is almost exhausted. Be careful of buttons, unless you wish the time to come when you will be obliged to pin your clothes together.

The war used to be three thousand miles away—and now the President is.

The doughboy who comes home from France expecting to be married at once will have nervous prostration when he buys his first American newspaper and reads in the advertisements "Women's spring suits, \$45.00, Women's oxfords, \$12.50," to say nothing of the produce and market reports.

Humidity after July 1st—Absent in the United States. Extreme in Mexico.

Mr. Hoover is right when he decrees that Germany must be fed. Hunger is a poor political adviser.

How would "near-beer work" answer as a slogan?

SOLDIERS APPLY FOR HELP

Only 3,655 Getting Special Training Advantages.

(By United Press.)
Washington, March 21.—Not every wounded American soldier is entitled to retraining by the Federal Board for Vocational Training. Under the law, the soldier must first have been awarded compensation by the War Risk Insurance Bureau.

To date the Bureau has awarded payments for injuries to only 3,655 men who are now receiving special training, but many thousands more have their applications under consideration by the bureau at this time.

PLUNGES DOWN EMBANKMENT
Alexandria, Ind., March 21.—Arthur Cox, 50 years old, a loan dealer of Elwood, was injured seriously last night on the Alexandria-Elwood pike, two miles west of this city, when the automobile he was driving plunged down a ten-foot embankment and turned over. James Gee, who was with him, escaped injury.

Sap and Salt
By HARRY MOORE
Widows and rich relatives live long.
A good way to conceal ignorance is to be dignified.
In taking exercise, do not overlook the mental muscles.
Smart people are only about one-half as smart as they think they are.

Any man who tries to get more for his money than his money is worth usually gets skinned.

If you have never experienced the joy of beating the other fellow to it, then you do not know what true joy is.

Hez Heck says: "When others are not boring us, we are usually boring others. Life is just one bore after another."

High School Notes

The preceding week has been a rather dull one for the school. There have been practically no activities to speak of and with so many teachers absent, the work was not normal. The six weeks grades were to be given out Monday but it was thought best to wait until the regular teachers had returned. Miss Denny is still out and Serg. Williams is teaching the algebra classes in her place. Mr. Schiedler has not been able to be at school since a week ago Thursday and Lieut. Foster has had charge of his history classes. Miss Black of the Junior High is home sick and Mr. Scholl is also unable to be here this week. Quite a number of the students are absent also. If any more get sick we might as well close the school and turn it into a hospital.

A group of first graders from the Jackson school sang before the assembly Thursday afternoon at the general assembly period. Little Walter Keaton proved quite a "hit" in a short poem which he recited. All the other number on the program were by the "sextette". The real talent shown in the program was hidden by the performers stage fright.

If it is still considered a patriotic duty to give a returned soldier a job, the school officials are certainly patriotic. During the past week four of Uncle Sam's former fighting men were on the faculty. Two of them were substitutes, however.

Now that the regular basketball season is over interest is centered in the inter-class games. The freshman defeated the juniors Monday night in a game by a score of 10-7. The next evening the sophmores defeated the "freshies" by the overwhelming score of 60-7. No one has yet accepted the challenge of the seniors. They have a team composed of all varsity men and of course everyone's rather shaky about attacking them. Perhaps the sophmores and faculty combined could give them a good game. Let's hope so.

Track season is also beginning to take hold. A group of boys can be seen putting the shot and hurdling before and after school each day.

SCHOOL TO OPEN MONDAY

The Manilla school will be reopened Monday, it was announced today. The school was closed last week on account of several teachers being ill with the influenza and had to remain closed this week on account of water standing in the basement of the building. All but one of the teachers who were ill, have recovered.

ARRIVES IN STATES
Mrs. Donald Sampson of this city received a telegram last night from her brother, Corporal James Meek, to the effect that he has safely arrived in New York from overseas. He states that he came over on the Dakota and is stationed at Camp Mills New York. He is expecting to be discharged from the service in a few days.

New Lumber Yard At MAYS

We are installing a complete building material supply yard at Mays and take this means of calling the attention of the citizens of the adjacent territory to this fact.

OUR MANAGER, MR. MILTON W. OSBORNE is in position to furnish

Everything to Build Anything

He will have the advantage over the average small town yard, owing to the fact that he has direct connection with a parent yard, carrying a complete line, full stocks and equipped with a first class planing mill.

We also call attention to WIRE FENCE AND POSTS—Special prices on these lines.

Pinnell-Tompkins Lumber Co.

PLANS ARE BEING MADE FOR 9 NEW BUILDINGS

Structure to be For Use of Women Inmates of the Indiana Village for Epileptics.

ORIGINALLY BUILT FOR MEN

(By United Press.)
Newcastle, Mar. 21.—Plans are going ahead rapidly for the erection of nine new buildings at the Indiana Village for Epileptics, it was announced today. The buildings will be for the use of women inmates, who heretofore have been in cramped quarters. The only buildings built originally were for the use of men.

Dr. W. C. Van Nuy, superintendent of the institution, is planning to call the trustees together soon and ask for bids on the nine buildings. The plans are already drawn having been prepared two years ago. The work was not started at that time however because of the impossibility of getting bids under the estimates.

In the appropriation of \$427,000 granted by the legislature authorities of the village consider they have sufficient money to make the more urgent repairs and improvements. Of this sum \$36,000 was available at once to start work on the new building.

Fourteen hundred acres are owned by the state.

CHAPTER DEGREE WORK

Rush Chapter No. 24 R. A. A. M. will have work in the Mark Master degree Monday evening beginning at 7:30. A buffet luncheon will follow the degree work.

SERVICE FOR U. S. DEAD

London, March 21.—A memorial service for American soldiers and sailors who fell in the war is to be held in Westminster Abbey April 4.

Baby Coming To Your Home?

The Wonderful Event That Will Bring Much Gladness.

Are you looking forward, dear prospective mother, to the wonderful, glorious time when you shall hold in your arms the little mite, which is of your flesh and blood, and feelings of mingling?

Now is the time to get in condition to meet the crisis, and three generations of women have found in the time-honored preparation, **Mother's Friend**, a grateful, penetrating remedy to prepare their systems to withstand the shock.

The action of this famous remedy is to relieve tension on drawn nerves, cords, tendons and ligaments, to relieve strain and discomforts, such as nausea, nervousness, head-aches and stretching pains. By regular use during the period the machine expands easily when baby is born; pain and danger at the crisis is naturally less and the hours are fewer. Do not neglect the use of **Mother's Friend**. It is for general application, only it is absolutely safe and wonderfully effective.

Write the **Bradfield Regulator Company**, Dept. M, Lomar Building, Atlanta, Georgia, for their **Mother's Friend**, and obtain a bottle of **Mother's Friend** from the drug store. It is just as standard as anything you can think of.

You'll Pick a Winner!

When you choose from our immense stock of GROCERIES. Our Groceries are always of standard quality. Let us promise you quick service and satisfaction and then GIVE US A CHANCE TO KEEP OUR PROMISE.

JUNIOR HIGH SCHOOL BASKETBALL TOURNEY

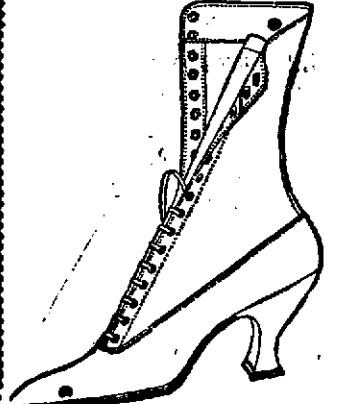

Thirty-two Teams From All Over the State Will Compete for the State Honors

RUSHVILLE TEAM WILL PLAY

After the close of the state high school basket tournament last week interest has turned to the games to be staged by the younger players and now centers in the state Junior 105-pound tourney that will be held at Newcastle Friday and Saturday March 28 and 29, under the auspices of the Young Men's Association. The local Junior team is sure of a place in the running as they are looked upon as strong competitors for the honors. Entries for the games closed last Saturday and those in a position to know declare that it is going to be a huge success.

Muncie has entered a strong team while Marion, Anderson and the local quintet are looked upon as the strongest contenders. The play in the tourney will begin early Friday morning and continue until Saturday night when the championship game will be staged. Trophies will be awarded the players on the winning team and a banquet will be tendered the champions after the final contest. The schedule will be arranged the latter part of this week.

Janesville Tandem Disk Harrow

THE Budlong Harrow is the only harrow we know of in which the bearings do not cramp while the machine is working. This freedom in the bearings means light draft and flexibility in the whole harrow. This allows the Budlong to make use, in a natural way, of all of its penetrating qualities to thoroughly pulverize the soil under the most trying conditions.

The rear harrow is built like a bridge and no manner of hard work will ever force this harrow to buckle in the middle.

Its Backbone Is as Rigid as a Concrete Arch

The trailer steadily holds its place back of the Budlong, whether used on side hills or on the level, on account of the way it is attached to the front harrow.

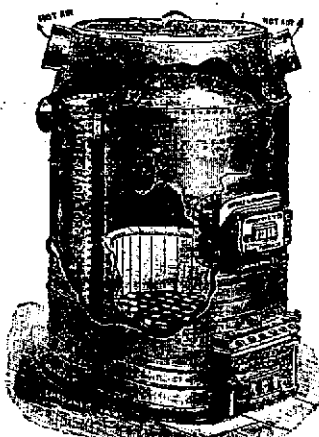

The same material used in all Janesville machines is found in the Janesville Tandem. Made in sizes from four to ten feet with sixteen-inch blades.

We looked them all over and felt our trade and local conditions would be best served by this Janesville model. Compare notes with us before you buy.

C. H. (Nick) TOMPKINS

The Monarch Kruse and Dewenter Annealed Steel Warm Air Furnace

The accompanying cut represents our "MONARCH & PORTABLE FURNACE. This furnace is designed as a strictly first class furnace in every respect and as a portable furnace is superior to any of its kind. It is readily seen from the engraving that the furnace has a very large radiating surface. The radiator is made upon an entirely new plan having reversible flues, the smoke and heat passing through two openings each side and down to the base of the radiator and then back again to the top before entering the smoke flue, thereby preventing a loss of heat. The furnace is constructed throughout of annealed steel plates and is absolutely gas-tight in every part. The fire box is lined with fire clay tile lining. It burns anthracite and soft coal, coke, wood and natural gas. In use over 35 years. Sold and installed by

Walter Perkins

with 22 years of practical experience in warm air heating. Why take a chance on a furnace with a cast iron fire pot installed by some one who knows little or nothing of warm air heating when you can get the best at a less price than you are asked for a cast iron furnace.

WELCOMED HOME BY HIS CONGREGATION

The Rev. M. W. Lyons is Surprised to Find 200 People Assembled on His Return Home

GIVEN SUBSTANTIAL PURSE

The Rev. M. W. Lyons was very pleasantly surprised last night, when on his return home last night at eight o'clock from Morristown, to find two hundred members of St. Mary's Catholic church congregation assembled there. The occasion was to celebrate the pastor's return from a month's visit in Porto Rico. He arrived home Wednesday evening.

A. H. Schriebe presided at the informal welcome which was extended to Father Lyons, consisting of a musical program and short talks. On his arrival the people in the parsonage sang "We Kept the Home Fires Burning," which was an adaptation of the popular song, "Keep the Home Fires Burning." Father Lannart, who has been acting as pastor during Father Lyons' absence, spoke briefly, giving his impressions of Morristown, and Robert E. Mansfield made the welcoming talk, presenting Father Lyons with a check for a substantial sum as a token of appreciation from the congregation. Father Lyons responded in a happy vein, and gave a brief description of his trip. The song which was sung as Father Lyons entered follows:

We kept the Home Fires Burning
And prayed for your returning.
Though you were far away
We longed for you,
There's a silver lining
Neath each dark cloud shining,
We turned the dark cloud inside out
Until you came home.

+ With The Churches +

+Glenwood, United Presbyterian church: Sabbath school 1:30, preaching services, 2:15.

+Franklin Methodist—Following the work of the Minute Man at 2:00 p. m., the pastor will preach. A good attendance is desired.

+Surgeon Major Staton, who spent three years with the Canadian overseas forces, will speak at the Arlington Christian church Sunday evening at seven o'clock.

+Pleasant Ridge Methodist: Bible School 9:00 a. m. The Epworth League is planning an all week Win-My-Chum service for next week, to which all are invited.

+The First United Presbyterian church: Bible school, 9:30; Public worship, 10:45, sermon subject, "He That is Spiritual;" Y. P. C. U., 6 o'clock; preaching services, 7 o'clock topic, "Why Should a Christian Unite With the Church." All are cordially invited to attend these services.

+The Main Street Christian church Bible school meets at 9:15. At 10:30 the pastor will speak on "Religious Reciprocity," and at 7 o'clock "Why Are You Idle?" The Juniors meet at 2:30 and Christian Endeavor at 6. Prayer and praise service Thursday 7:30, with Mrs. E. H. Jones as leader. At the Sunday evening service orchestra and chorus choir.

+The First Presbyterian church 7:15 a. m., "Quiet Hour," with special prayer for the Victory Day of the Presbyterian church. 9:30 Bible school, M. V. Spivey, superintendent; 10:30 a. m. Victory day services, celebrating the special day of the Presbyterian church for world evangelism; 7 p. m., evening worship, sermon, "A Searching Question and a Vital Answer." Special music at both services. Thursday evening 7:30 prayer meeting.

+First Baptist church Sunday services: Sunday school at 9:30; Public worship at 10:45 a. m. and 7 o'clock p. m.; sermon for the morning hour, "Religious Habits;" theme for the evening service, "Religious Neutrality an Impossibility;" Baptist Young Peoples Union at 6 o'clock. Mid-week prayer service will be on Thursday evening. The general public is invited to all these services.

+Arlington Methodist: Bible school 9:30 a. m. The pastor will use a few minutes at the close of school in illustrative review work. At 10 o'clock Minute Man J. F. Neff of New Palestine will speak. The rest of the morning service will be a welcome to returned soldiers, the address being given by Augustus Williams, Jr., who has recently returned from France. A large attendance is desired. Everybody welcome. At the evening services Mrs. Emma Six will lead the Epworth League after which the pastor will hold the quarterly communion service. The Junior League will meet at the usual time, 2:00 p. m.

Mae Murray at Mystic.

The Mystic theatre is offering a special production tonight, featuring Mae Murray in "Her Body in Bond." This picture is founded upon facts that actually happened to a friend of Miss Murrays.

Same Program at Princess

Wallace Reed in "Too Many Millions" is the offering at the Princess theatre again tonight. Roseoe "Fatty" Arbuckle is also on the program in one of his best comedies.

A tractor that will fit your farm—the Fordson

YOU can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

There's an Oliver No. 7 Plow for your Fordson

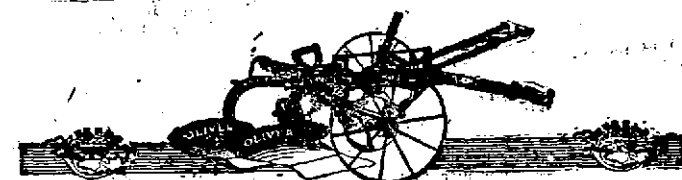

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

Come in and let us show you this remarkable farm team.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's Iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

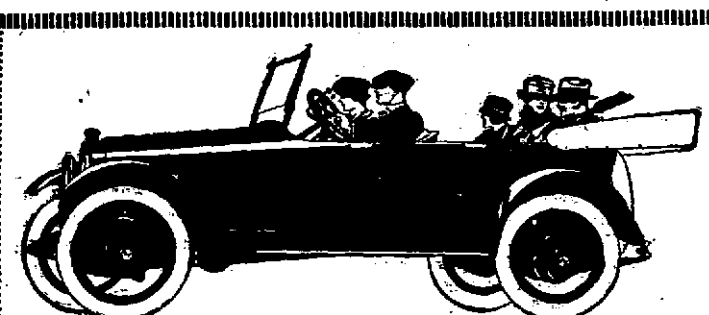

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Glycerine; Peptonate; Nat. Wax; Vanilla; Powdered Gentian; Phenolphthalein; Oleic Acid; Capsicum; Kolo.

Boxley's Piano Store

128 WEST SECOND STREET.

The meeting and pitch-in supper of the Plum Creek Aid society, which was to have been held next Wednesday, has been indefinitely postponed.

Mrs. Jack Knecht will be hostess for the Tri Kappa meeting Monday evening at her home in East Sixth street. As this will be a business meeting all members are urged to be present.

One of the delightful social events of the season was the Social club supper given at the Social club rooms in North Morgan street last evening. The delicious two course turkey dinner was served on small tables and the Franklin Jazz orchestra furnished the music for the evening. One guest, Miss Cooper, of Greenfield, was present.

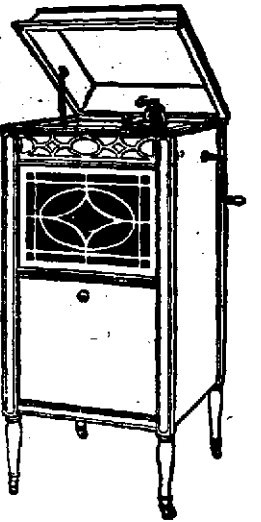

The members of the Pleasant Ridge Epworth League cabinet met last evening at the home of Miss Opal Mull southwest of the city, and conducted a business meeting. Plans were discussed for the "Win-My-Chum-Week," to be given next week, beginning Tuesday evening, March 25. Other plans were also discussed for the coming year.

The W. R. C. circle enjoyed a very interesting meeting yesterday at the home of Mrs. J. C. Craig at her home in East Eighth street. After the business session the afternoon was spent socially with music and light refreshments were served by the hostess. The next meeting will be with Mrs. Ella Higgs at her home in West Second street.

A number of friends of Mr. and Mrs. Will Sipe, of Orange, gave them a kitchen shower and pitch-in supper last evening on the occasion of their entering their new home. Those present were Mrs. Ella Boyer and family, Mr. and Mrs. John McKee of New Salem, Mr. and Mrs. Will McKee, Mr. and Mrs. C. H. McKee and family, Mr. and Mrs. S. S. McKee and family, Mr. and Mrs. A. R. Mahin and family, Mr. and Mrs. Phillips and family and Mr. and Mrs. O. P. Wamsley.

Mr. and Mrs. Luther Hungerford, living southwest of the city, entertained a number of their friends Tuesday evening with a rook party. Those present were Mr. and Mrs.

HOME MADE BREWS ARE COMMON HERE

Continued from Page One

age and will make a most delicious, healthy and nourishing beverage."

But brewing according to the above formula is almost equal to starting a brewery.

In lieu of the manufactured article, many are now using a strictly homemade formula in one of the following ways:

Mix two pounds of hops, a peck of malt and five gallons of water. Steep for three or four hours. Then drain off water and put in keg. Cover the hops and malt with five gallons more water and heat, but don't boil. Dissolve in this two pounds of brown and three of white sugar. Allow to cool to 50 to 60 degrees and add three yeast cakes; put all in a barrel and let it stand for 96 hours. Then bung it up and set away for at least a week.

A pound of raisins, a pound of brown sugar and a gallon of water make up the only necessary ingredients of a "guaranteed" cocktail substitute, according to some. The concoction should be brought to a simmer, placed in a wooden vessel and allowed to "work" for fifteen days.

Put two quarts of white corn in a keg of cider. Allow to ferment. The result is, astounding and in keeping with the best traditions of Kentucky distillery products.

Put two raisins in a bottle of near-beer. Let it sit a while.

POPULAR HOSPITAL VISITOR

Mrs. John Jacob Rogers, wife of Congressman Rogers of Massachusetts, is said to be the most popular ward visitor at Walter Reed hospital, Washington. She has been serving wounded soldiers since the first one came from the other side.

Studying for the Screen.
"I heard from Umson last week."
"What is he doing?"
"Attending some kind of a school in New York."
"Getting on all right?"
"Broke an arm last week, he told me."
"Where?"
"And the week before that he sprained an ankle."
"Well."
"One day he nearly lost an eye."
"I never did believe in too much school athletics."
"This is different."
"In what way?"
"I asked Umson what he meant by that kind of conduct, and he said if he holds out long enough he is going to be a moving-picture actor."

COUNTY REPRESENTED AT CONFERENCE TODAY

Four Women From Here Attend the Meeting of Red Cross in Indianapolis.

DISTRICT WORKERS SPEAK

A conference of the Red Cross workers of the state was called by the superintendent of the Women's Red Cross work in Indiana, Mrs. Hugh McGibeny. This conference is being held in the assembly room of the Hotel Severin today. Mrs. Harry Jones, Mrs. Phil Wilk, Mrs. Willard Amos and Miss Sue Gregg are representing Rush county.

An attractive feature of the conference was the luncheon at 12:30 o'clock. Many of the best speakers from all over the state were present. The chief interest centered around Mrs. Maude Smythe Strieberger, director of the chapter production of the Lake division. C. B. Dyer, superintendent of supplies, also attended, with Martin Tellen, Red Cross field director, who told the women workers how their work was appreciated by the boys overseas. Tellen was overseas and was expected to relate some interesting first-hand stories.

Under the patronage of the Red Cross a remarkable exhibition of porcelains made by wounded soldiers was held in Paris recently.

MOTHER GRAY'S POWDERS BENEFIT MANY CHILDREN

Thousands of mothers have found Mother Gray's Sweet Powders an excellent remedy for children complaining of headaches, colds, feverishness, stomach troubles and other irregularities from which children suffer during these days and excellent results are accomplished by its use. Used by mothers for over 30 years. Sold by Druggists Everywhere. (Adv.)

REIGN OF ANARCHY MARKS RULE OF THE BOLSHEVIKI IN RUSSIA

World May Never Know What Toll in Death and Misery the Lenine-Trotsky Regime Has Brought to Russia—Declare War on Humanity by Sending Missionaries to Spread Anarchistic Teachings in Other Countries.

By LLOYD ALLEN,
Western Newspaper Union Staff Correspondent.

(Copyright Western Newspaper Union)
Russia was the great unknown quantity in world affairs when the peace conference started its session in Paris. Was the giant of nations, with its 180,000,000 people, rotten to the core with the anarchistic doctrines of the bolsheviks, or was there a sound fabric in the gigantic ex-autocracy on which a future state government could be built?

Among the American members of the peace delegation the belief was held that Russia was not entirely corrupted with the teachings of Lenine and Trotsky, the bolshevik leaders. It was believed that Petrograd and Moscow, the large cities of Russia, were the worst centers of anarchism, but that the great public of Russia were fast tiring of a regime that gave them only promises and withheld food and put industry into a state of stagnation. There were 25 other political groups in Russia that opposed Lenine and Trotsky, and from these cliques it was hoped that some program could be developed to the satisfaction of Russia's people, as well as the peace conference, a program that would rejuvenate Russia and be the means of ending the so-called bolshevik government in Petrograd that was endeavoring to sway, not only Russia, but the whole world as well.

Declare War on Humanity.
For Lenine and Trotsky, with their immediate followers, had declared war on humanity; had openly announced it was their intention to send bolshevik missionaries to all civilized nations to preach fair words and if possible introduce reigns of terror in all the civilized nations. This threat was not taken too seriously by the allied peace delegation in Paris. But it was admitted that preaching of ultraradical doctrines during the trying period of world demobilization was an extra evil that should be discouraged. No added burden should be placed on a world endeavoring to return to the ways of peace, particularly when it was definitely known that the bolshevik doctrines, as preached, were entirely different from the same maxims as practiced. Russia's plight was the outcome of admitting bolshevik missionaries, bringing ruin for Russia and enrichment to Lenine and Trotsky and their immediate followers.

Before the war had actually ended the bolshevik missionaries were starting on their errands of "education." Ample provided with gold or securities dozens of these revolutionaries were apprehended when endeavoring to pass frontiers leading into allied territory.

Men attached to the American peace delegation in Paris were familiar with the workings of the bolshevik machine. Our officials had fairly adequate reports on what was taking place in Russia, especially in Petrograd and Moscow, and after watching the bolshevik regime for more than a year knew that there was only one method by which the bolshevik could perpetuate their existence. That was by spreading revolution and not by conducting a government, for as administrators of government the bolshevik had proven their utter incapacity.

Brought Ruin to Russia.
They had brought rank ruin to Russia, but money into their own coffers. They saw more money for themselves in introducing their doctrines into foreign lands. They, in short, had made a paying business of revolution.

As for Russia, the methods adopted by the Lenine-Trotsky crowd were infinitely worse in tyranny and autocracy than anything officials of the czar had ever inflicted on the long-suffering population.

Starvation was made into a weapon by which converts were created for the bolshevik cause. The food supply of Petrograd and Moscow was systematically limited, curtailed until people who did not openly support Lenine and Trotsky, or work in the so-called state factories, or join the Red Guard in its bloody atrocities, were actually starved to death, but to the Red Guard, and men and women working for the bolshevik autocrats, food and money were supplied in some abundance.

Information concerning Petrograd usually came to Paris, and to the American peace delegation, from Americans of Russian descent who managed to escape from Russia. The stories these Russian-Americans told surpassed stories of the French revolution in 1793, and that revolution, until 1919, was the high-water mark in bloody episodes of modern times.

It was fairly well authenticated, for instance, that the starving people of Petrograd, in some cases at least, resorted to cannibalistic practices, so great was the urge of hunger. The shooting of innocent people in the streets by members of the Red Guard became such an old story that it was no longer news.

If the cost of living was high in other parts of Europe it was possible for working people to earn a living in France, England and Italy and have sufficient food. But in Russia the government of Lenine developed a set of conditions that made living an impossibility for a large section of the population in the cities.

When starvation threatened to produce serious rioting in Petrograd or Moscow, Lenine's government sanctioned the distribution of just enough food to take the edge off the temper of the crowd.

Reign of Terror.
All the while an army of 200,000 men (the Red Guard) committed acts of terrorism in an effort to maintain bolshevik supremacy and prevent a counter-revolution. The army was built around 20,000 to 30,000 Lettish sharpshooters and 8,000 Chinese mercenaries who were the only faithful elements in these troops. The remainder of the 200,000 members in the Red Guard were admittedly sick of the whole business and only prevented from returning to their homes by the knowledge that once out of the army three meals a day would become a thing of the past.

To half of the army food was the only thing demanded of the government. The remaining 50 per cent—the older men—were not content with promises and food, but also demanded some money. So Lenine and Trotsky allowed these soldiers a wage of 600 rubles monthly.

This Red Guard was the force with which the all-Russian committee against revolution prevented any other party coming into power. There were 25 political groups all told that were anxious to grab the reins of government, but the Red Guard, acting on orders of the all-Russian committee, wreaked bloody vengeance on any clique that endeavored to make itself heard.

When the peace conference proposed calling a meeting of delegates of all Russian parties to be held on Princes Island in the sea of Marmora, near Constantinople, it was definitely known in Paris that the great body of the Russian public was sick and tired of bolshevik rule, and that the interior of Lenine's soviet system of government had started to crumble. It was a condition of the Princes Island meeting that military enterprises of the bolshevik should be stopped. It was the idea of the American section of the peace conference to encourage a truce between the clashing Russian elements—for the sake of Russia's people.

Turn to Germany.
Lenine had a vision of the downfall of his autocracy—when Germany broke diplomatic relations with Petrograd. But Trotsky, partner in most of Lenine's plans, put forward a scheme of perpetuating the Russian rule of terror. Trotsky saw in a German revolution and acceptance of bolshevik rule enrichment of the bolshevik inner circle. Germany had a fairly prosperous merchant class whose property under bolshevism would go largely to bolshevik leaders. Eventually, Trotsky saw a bolshevik world—and power and gold for the firm of Lenine, Trotsky & Co., specialists in the ruination of nations. Trotsky, with his plan, was over Lenine, just after the Germans severed connection with the soviet.

While hundreds died daily in Petrograd from hunger and from bullets of the Red Guard, the Moscow press was busy printing the leaflets that portrayed bolshevism as the remedy

Pennant Syrup has come back!

Pure, wholesome, delicious Pennant Syrup, with its maple-like flavor, is ready for your table again.

During the war it was impossible to obtain the pure granulated sugar that goes into Pennant. Rather than sacrifice Pennant quality in the slightest degree, we stopped making Pennant temporarily.

And now Pennant has "come back"! We believe it to be the best syrup that ever smiled up at you from your waffles, biscuits, bread, cereal—or wherever you like it best.

Children love it. "Grown-ups," too. It is good for them. Your grocer has Pennant again. Ask for it today.

Air-tight, friction-top can. Easy to open—easy to close.

Pennant

Smack-your-lips syrup—with a delightful maple flavor

TO RETAIL GROCERS: Your jobber now has Pennant Syrup and will gladly fill your order.

SPRING FEVER

Following Colds, Grippe, Thin, Watery or Poisoned Blood

(By Dr. Valentine Mott.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, and little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alterative and blood purifier. Such a tonic as Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and herbs.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloes and jalap, and sold by almost all druggists in this country as **Dr. Cass' Family Pleasant Pellets**.

Dr. Mott's, Ind.—"When I had a severe cough, night sweats, loss of weight and appetite, I was induced (by reading a pamphlet) to try Dr. Pierce's Golden Medical Discovery. I took it faithfully for about 40 days, and gradually I gained; the cough disappeared and I put on flesh and got strong again. I took no other medicine at the time. It did a great deal of good and I shall always feel grateful to Dr. Pierce for this remedy. I have had no cough for 14 years, since I was cured by Dr. Pierce's Golden Medical Discovery."—**Dr. J. L. Mott, 512 E. Kansas St., Indianapolis.**

for all political evils of modern times. "Down With the Old Civilization!" was the slogan of the Moscow and Petrograd followers of Lenine and Trotsky. This cry was the natural development of bolshevik government, which officially proclaimed on January 13, 1918, "private possession of the land is abolished forever and the entire agricultural area is to be distributed between the working people free of payment."

"All banks are henceforth property of the state."

"A Red army of workmen and peasants is to be formed to maintain order. All loans to the czar's government by the bourgeoisie (merchants, bankers and professional men) are to be cancelled."

These regulations, given out as official proclamations in Petrograd, were but the beginning of the bloody bolshevik regime.

Truth May Never Be Known.

It was the start of over a year of terror for Russia. No one will know until years have passed, perhaps never, what toll in dead bolshevik rule brought. No human mind can measure the misery brought to noncombatants.

While the Red Guard controlled Russia and when delegates were invited to the Princes Island convention by the peace conference to thrash out a sound program for a new Russia—allied and American groups in Paris, especially the American Red Cross, were planning relief expeditions to start the moment access could be gained into Russia.

It was agreed that medicines, physicians, food trains and first-aid materials must be rushed to stricken centers at the earliest possible date. This was the kind of intervention in Russia that officials of the associated powers hoped to see come out of the future.

DAHLIA IS MAKING FRIENDS

Once Humble Flower Rapidly Being Brought to High Position by the Master Florists.

The chrysanthemum is not to have everything its own way in the world of flowers. No doubt the chrysanthemum show gets more of the limelight of publicity than a dahlia show, but the gorgeous blossom that was once called "the prim old maid of the flower world" is having its "shows" or exhibitions just the same, and the reports have it that they are attended by large crowds. The dahlia show has become a regular thing in many cities and it is said that there are persons who can work up quite as much enthusiasm for the dahlia as for the "mum." The dahlia, from a very simple and home-loving

flower, has become somewhat of a social pet.

It was not many years ago that the dahlia bloomed in the yards of small homes. Sometimes it grew in the front yard and sometimes in the back yard. It might be remarked here that the "yard," especially the "front yard," has disappeared. Nobody now has a front yard. Nobody who is anywhere near up to date would have such a thing about the house. The piece of real estate which we used to call the front yard has become the "lawn."

Well, formerly the dahlia grew only in the yards of humble homes. It had

not broken into what is called "society." Fashionable "grounds" could not think of admitting such a plain, hardy and highly colored citizen of the flower world as a mere dahlia. It did not belong to their set. But the merit of this flower and the high state of culture which it has attained under the guidance and tuition of master florists has forced the proudest gardeners to open their gates or let down their fences. The dahlia now holds up its stately head among the exclusive set of tuberous, gladiolas, carnations and the like.

For a Pain around the Heart after Eating.

TAKE

PEPSINCO

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pain; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications of indigestion which PEPINCO immediately relieves. Keep PEPINCO handy and take it the next time.

Ask your druggist—he sells and recommends Pepsinco.

AGREED SPIRITUALLY BUT SPLIT MATERIALLY

George Joseph Taylor and Wife Could Not Agree When it Came to Material Things

MARRIED LESS THAN A YEAR

San Francisco, Mar. 21—George Joseph Taylor, who knows where heaven is, and who is about to tell the world its exact location in a book, is seeking a divorce from Marie Zentgraf Taylor, his million dollar New York bride.

After less than a year of married life Mrs. Taylor has returned to her Riverside Drive home in New York, where she will continue studying spiritual subjects and preparing lectures.

So long as the two lived in the spiritual world, in which they were engrossed, they were happy together, Taylor said. But when they came down to material things they learned they were not suited.

PATRIOTIC RALLY PLANS COMPLETED

To be Held in the Local United Presbyterian Church Monday Evening, March 24.

DR. J. S. MCGAW TO BE SPEAKER

Will Deliver Popular Address on "America and the New Era"—at Milroy Sunday.

Arrangements have been completed for the great patriotic rally to be held in the United Presbyterian church of Rushville, Monday evening Mar. 24th at 7:30, when Dr. James S. McGaw of Los Angeles, Calif., will deliver his popular address on "America and the New Era". Dr. McGaw will deliver the same address at the Milroy school auditorium Sunday night at seven o'clock.

Dr. McGaw, for the past ten years has been the general field secretary of the National Reform Association. He has had special charge of the work of the National Reform Association on the Pacific coast but has frequently toured the country speaking in practically every state on various subjects related to the moral interests of this country.

The success of the second World's Christian Citizenship Conference held at Portland, Ore., shortly before the war began was largely due to Dr. McGaw's leadership. He is now engaged in preparations for another world gathering to be held in Pittsburgh, Pa., Nov. 7-14, when citizens of many nations will gather to confer regarding the moral interests of mankind.

The address which Dr. McGaw is to give here has received hearty approval from thousands of enthusiastic auditors in all sections of the United States. In it he reveals the leadership of the American and the responsibilities and opportunities which have come to America to aid in the reconstruction of civilization.

Those who have heard Dr. McGaw are so hearty in their praise of his patriotic, interesting and unusual subject matter and of his cyclonic delivery that a large audience is expected by those having the meeting in charge. This patriotic rally is for both men and women of all faiths. The local arrangements are in charge of the Rushville Ministerial Association.

A thousand-acre farm in the heart of a city would doubtless be looked upon as a poor business proposition and a waste of valuable space. But in hundreds of large cities of the United States the corporate limits surrounded last year thousands of little farms, the aggregate area of which ran into thousands of acres. Nor were these garden farms a poor business proposition, for the land had been idle for many years, and the time spent in its cultivation in most cases would have been wasted.

Nobody knows how many city gardens were planted or how many acres were really occupied last year, but it is known that the value of the products of these gardens ran into many millions of dollars, and that the home food plots helped materially in providing food for the hungry. A survey of the situation discloses that there still are thousands of acres of idle land, suitable for gardens, in and around our large cities and industrial centers. There still is great demand for food production and conservation, and the man who turns idle city land and spare time into edibles will serve his country by raising a part of his own food and lessening the drain on regular farms.

EXCESSIVE ACIDITY is at the bottom of most digestive ills.

KI-MOIDS

for indigestion afford pleasant and prompt relief from the distress of acid dyspepsia.

MADE BY SCOTT & BOWNE, MAKERS OF SCOTT'S EMULSION.

INCREASE IN NUMBER OF CASUALTIES TODAY

Total of Six Hundred and Five Are Reported by the Commanding General of A. E. F.

29 HOOSIERS ARE REPORTED.

ONE MAN OPERATES BOTH TRACTOR AND IMPLEMENT

MOLINE
UNIVERSAL TRACTOR
It Solves The Farm Help Problem

With two 14-inch bottoms, under average plowing conditions, the new Moline Universal Tractor, Model D, plows 9 acres in 10 hours, as much as ordinary 3-plow machine. The superior efficiency of the Moline Universal is due to its higher speed, 3 1/2 miles an hour, two bottoms at 3 1/2 miles giving the same number of plow-miles as three bottoms at 2 1/2 miles.

Plowing at 3 1/2 miles an hour gives ideal results, the ground being pulverized more thoroughly than at slower speeds, with less air space. Tough sod that cannot be turned at all at 2 1/2 miles an hour is plowed with ease.

Perfect work is assured with the Moline Universal through the advantageous position of the operator, who sits on the implement, where he must sit in order to do good work. The Moline Universal is easily handled, turns short, and backs as readily as it goes forward.

Waste of time in the field is eliminated and the tractor kept at productive work a maximum number of hours a day through a complete electric starting and lighting system. The Moline Universal is the only tractor thus regularly equipped.

The secret of the speed and power of the Moline Universal lies in its perfected overhead-valve engine and two-wheel construction. The engine develops 48 horsepower at the belt, and 9 at the drawbar, every ounce of which is available for pull. There are no dead wheels to drag along that only carry weight and steer.

For plowing in extremely soft ground, the Moline Universal is equipped with a differential lock that enables the two drive wheels to be locked together, doubling their pulling power.

When plowing the land wheel is raised so that the tractor is level. The wheel is very easily and quickly raised or lowered.

The light weight of the Moline Universal, 3280 pounds, and its high clearance, 29 1/2 inches, make it adapted for all other field work, besides plowing. With it one man can plant 40 acres a day, cultivate 20 acres a day, harvest 25 acres a day, or do any other work with equal speed. It is the ideal tractor for any sized farm, practically eliminating horse and solving the farm help problem.

Call and let us show you this remarkable machine.

All Traces of Scrofula Cleansed from the Blood

Impurities Promptly Wiped Out.

If there is any trace of Scrofula, or other impurities in your blood, you cannot enjoy the full physical development that a healthy body is capable of until your blood has been thoroughly cleansed and purified of all traces of impure matter.

S. S. S., the wonderful old purely vegetable blood remedy, has no equal for removing the last trace of Scrofula and other blood taints, and there is no case that it does not promptly reach. S. S. S. will thoroughly cleanse and remove every disease germ that infests the blood and give you new life and vigor. It is sold by all druggists and you should get a bottle and begin its use to-day. Write a complete history of your case, and you can obtain expert medical advice free by addressing Medical Director, 30 Swift Laboratory, Atlanta, Ga.

PARENTS HEAR FROM PVT. EDWARD COONING

Is Located in Base Hospital 118 at
Saveney, France, Serving in
Capacity of Clerk

IS ANXIOUS TO COME HOME

Mr. and Mrs. John Cooning of North Sexton street have received recent word from their son Edward who is now serving in Base Hospital 118, at Saveney, France, as a clerk. Private Cooning was taken ill while in England and was taken to a hospital there for treatment, when he had recovered he was transferred to France in January. Cooning and Robert McNeeley are said to be the only two boys in France who were formerly members of the sanitary detachment.

The letter in part is as follows: "Suppose you are wondering what has become of me by this time. I am at a T. B. hospital, working instead of a patient. I work in the registrar's office and the rest of the fellows here are certainly a dandy bunch and we are having as good a time as we can expect to have in the army."

"I saw a fellow from home about two weeks ago, Roy Roman, I don't think you know him, we played football together for two years. He was leaving for the States and I just had time to say hello to him. I sure would have given a lot to have talked to him for a while."

"I hear the most of my division is back and my regiment was at Ft. Benjamin. They sure are a lucky bunch of fellows. Wish I was with them. If they are there, some of them are home by this time and if you see any of them give them my best. I haven't any idea when I will be home but I think in a few years at least, ha. This place is said to be one of the finest parts of France in the summertime."

"It has been three months since I have had a letter from anyone and the next one I get I am going to save as a souvenir. I am well and O. K. and please don't worry about me for I am going to write oftener and hope to be home soon."

LAST NUMBER OF COURSE

The last number of the New Salem lecture course will be given in the auditorium of the high school building tomorrow night. This will be given by a concert company and promises to be one of the best numbers on the program.

North Side Court House

AVERAGE VALUE IS REGARDED AS GOOD

Continued from Page One
of \$20.38 a hundred pounds. A total of 649 sheep listed by 14 assessors averaged \$10.50 a hundred pounds. Two hundred and ninety-two automobiles appraised by 22 assessors average \$352.07. Seventeen hundred and five horses listed by 22 assessors averaged \$97.82.

The low averages for some kinds of personal property are found in Noble, Ripley, Orange and Washington township. The average of \$78.50 for horses, 12 cents a pound for hogs and \$79 for household goods in Noble township is regarded as far too low. Household goods averaged only \$54 in Ripley township as compared with the county average of \$122.91. Three averages in Washington township are believed to be too low—horses \$82.60, tools \$92.38 and household goods, \$73.29. The township averages are as follows:

Posey
Horses \$85, cattle \$56.25, hogs, \$17.50 a hundred, sheep \$10.87 a hundred, automobiles \$250, tools \$155 household goods, \$115.

Rushville
Horses \$95, cattle \$87, hogs \$22, sheep \$10.25, automobiles \$412.40, tools \$20, household goods \$180.

Union
Horses \$92.25, cattle \$52.75, hogs \$18.25, sheep \$8.34, automobiles \$387, tools \$152, household goods \$130.

Anderson
Horses \$95.25, cattle \$60.65, hogs \$17.55, sheep \$10.25, automobiles \$325.75, tools \$215, household goods \$116.10.

Noble
Horses \$78.50, cattle \$54.50, hogs \$12, sheep \$10.50, automobiles \$349.50, tools \$120.25, household goods \$79.

Orange
Horses \$119.34, cattle \$57.34, hogs \$17.58, sheep \$10.12, automobiles \$298.50, tools \$139.48, household goods \$65.50.

Jackson
Horses \$116.76, cattle \$62.90, hogs \$22.75, sheep \$10, automobiles \$388, tools \$175.50, household goods \$171.

Walker
Horses \$112, cattle \$55.87, hogs \$18.12, sheep \$9.50, automobiles \$463, tools \$140.38, household goods \$83.75.

Ripley
Horses \$91.55, cattle \$56.05, hogs \$16.50, sheep \$10, automobiles \$204.25, tools \$125.88, household goods, \$54.

Washington
Horses \$82.60, cattle \$59.95, hogs \$14.06, sheep \$12, automobiles \$308.55, tools \$92.38, household goods \$73.29.

Center
Horses \$131, cattle \$60.75, hogs \$19.80, sheep \$10.65, automobiles \$336, tools \$136.34, household goods \$144.91.

Richland
Horses \$97, cattle \$77.31, hogs \$17.38, sheep \$9.51, automobiles \$403.80, tools \$235, household goods \$93.75.

U. S. SHIPS SAIL FOR HOME
Rio Janeiro, March 21.—The American squadron, under Rear Admiral Caperton, which for some time has been paying visits to South American countries, sailed for the United States yesterday.

TO FORM ROTARY CLUB
Madison, Ind., March 21.—Business men of Madison met today to organize a Rotary club. They were aided in the movement by the Indianapolis clubmen, who made the trip to Madison in a chartered car.

FIGHTING MEN WERE DISABLED IN CAMPS

Claims Show That a Very Small Percent Were Injured in Battle in Comparison to Camps.

CLAIMS BEING PRESENTED.

(By United Press.)

Washington, March, 21.—Claims presented to the War Risk Insurance Bureau by disabled soldiers show that only a small portion of them were disabled in battle compared with those remaining in camp.

Of the first 6,396 claims sent into the bureau only one and three-tenths per cent—83 men—received their disabilities in battle, while 68.9 per cent were disabled in camp, either in this country or overseas.

This percentage will, of course, be greatly altered as the men, returning from France, turn in their claims, yet officials of the bureau predict that the majority of claims will come from men disabled while in training. As soldiers become more thoroughly trained in the methods of warfare and camp life, the danger of being disabled is lessened, it was pointed out.

Kyanize

You'll like the work it does

Economize with Kyanize It Beautifies

Try it on your furniture—your floors—or any woodwork

See how smoothly this wonderful varnish works. Note the short time in drying—apply it to-day—dry tomorrow and the beautiful lustre will never scratch while—hot or cold water cannot harm it. Try it, that's the best way to find out.

Pitman & Wilson

Delicate Children Vinol is What They Need

More than eight thousand druggists recommend Vinol because it contains in deliciously palatable form the oldest and most famous reconstructive tonics known to medicine. During the last sixteen years it has brought health and happiness to thousands of puny, ailing, anaemic children.

HERE IS PROOF

Middletown, Conn.
"I used Vinol for my little girl five years old for a rundown, nervous condition. She was thin, irritable all the time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and strength and is much pleasanter."—Mrs. C. B. Wilkinson.

Marville, R.I.
"The whooping cough, and later the measles left my little boy of eight years with no appetite, thin, frail, delicate and tired all the time. After everything else had failed Vinol gave him a hearty appetite, restored his strength and he is now as well as ever."—Mrs. James H. Hall.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Vinol Creates Strength

SOY BEAN SEED AND VARIETIES TO GROW

Supply From 1918 Crop Reported
Less Than That of 1917.

Well for Buyer to Make Germination
Tests as Seed Loses Its Vitality
Quite Readily—Variety Is
of Importance.

(Prepared by the United States Department of Agriculture.)

As the supply of the 1918 crop of soy beans for seed is reported less than the 1917 crop, it is advisable at this time to look forward to supplies of seed of desirable varieties and prices. It is not likely that the prices will be much lower than at the present time. Undoubtedly much of the 1917 crop of seed will be sold this season. It is well for the buyer as well as the grower who has his own supply of seed to make germination tests. Soy bean seed loses its

Cultivating a Field of Soy Beans.

viability quite readily, and unless the seed is of the 1918 crop or has been properly cured and stored tests should be made to learn if the seed is of high germination.

The variety to be grown is of prime importance, and the grower should select one suited to his locality. The late varieties for forage or seed are best suited to southern conditions, although the Virginia and Haberlandt, both medium late varieties, have given most excellent results under southern conditions for seed, forage and pasture. The best late varieties are Bilozi, Mammoth Yellow and Tokyo.

PUT IMPLEMENTS IN REPAIR

Troublesome and Costly Delays May
Be Avoided by Getting Tools in
Working Order Early.

(Prepared by the United States Department of Agriculture.)

All users of farm implements should anticipate, so far as practicable, the necessity for repairs and replacements sufficiently in advance of the working season to make it possible to put their implements in good working condition before the spring operations begin. This is the gist of a telegram from the secretary of agriculture to E. W. McCullough of Chicago, secretary of the National Implement and Vehicle association. Secretary Houston's telegram was in response to one from Mr. McCullough advising him that manufacturers of and dealers in all lines of farm operating equipment have agreed, in the interest of economy and conservation, to join in urging farmers to inspect their equipment and to order necessary parts in advance of the time they are needed.

Manufacturers and dealers declare that if they can know sufficiently in advance the needs of the farmers for repair parts, these parts can be supplied when they are needed. If the needs are not known to the manufacturers and dealers until the actual time for use, troublesome and costly delays are likely to be caused—delays that may be felt in decreased production at harvest.

SOILS READY FOR PLOWING

Overzealous Gardeners Waste Time
and Do Harm by Getting on
Them Too Early.

A simple test to find out when garden soil is ready for plowing or work-

ing is to pick up a handful and close the hand tightly on it. If the earth falls apart when the hand is opened it is dry enough for cultivation. This test applies largely to fairly heavy soils, but these are the soils that are most liable to injury from working them when too wet. Overzealous gardeners waste time and actually do harm on heavy soils by getting on them too early.

MARKETING LETTUCE IN LOTS

When Sold in Barrels to Small Grocer
There is Always Remnant or
Two Wilted.

Lettuce should be marketed if possible in small packages. When sold in barrels to small grocers there is nearly always a remnant after a day or two which is wilted and hard to sell. Small packages are much better for retailers with a limited trade because they can sell a basket or two every day and buy a fresh lot the next day. This plan is better for producer, retailer and consumer. It counts for larger sales, larger prices and smaller losses.

AMERICA'S IMMORTALS

MARCELLUS H. CHILES,
Captain, 35th Infantry.

Capt. Chiles was decorated for conspicuous bravery in action, which resulted in his death near Le Champy Bas, France, November 3, 1918. When his battalion, of which he had just taken command, was halted by machine gun fire from the front and left flank, Capt. Chiles picked up the rifle of a dead soldier and, calling on his men to follow, led the advance across a stream waist deep, in the face of the machine gun fire. Upon reaching the opposite bank, this gallant officer was seriously wounded, in the abdomen by a sniper, but before permitting himself to be evacuated he made complete arrangements for turning over his command to the next senior officer, and under the inspiration of his fearless leadership his battalion reached its objective. Capt. Chiles died shortly after reaching the hospital. His home was at 2815 West Thirty-seventh street, Denver, Colo.

Honor, and General Petain of the French army, who presented the medal.

DENIES STAFF SOUGHT PEACE

Hertling's Son Insists German High Command Did Not Weaken.

A son of the late Count George F. von Hertling, former imperial chancellor of Germany, has published a denial of the allegation that the German imperial government was twice requested by the supreme command of the army to conclude peace while his father was holding office. He avers that he is conversant with all that took place at that time between the supreme military command and the government, and says that it is untrue that, either in May or August, 1918, did the general staff ask, or even hint, that peace was desired, or intimate that it was willing to renounce any of Germany's war aims in any way.

The General Anzeiger of Frankfurt, which prints the denial, adds that young Hertling is preparing a book in which full records of his father's activities will be set forth.

48 PER CENT DISCHARGED

Washington, Mar. 20.—Demobilization of the division of military aeronautics up to March 6 had reached 48 per cent of the total of personnel, the war department announced today. The bureau of aircraft production had increased 94 per cent up to March 11, according to demobilization statistics.

NOTICE TO NON-RESIDENT.

State of Indiana, Rush County. In the Rush Circuit Court, Feb. Term, 1919. George H. Sweet, Adm. of Estate of Dickson Sweet vs. Caroline Sweet et al. Complaint No. 1758.

Now comes the plaintiff, by Donald L. Smith, attorney, and files his complaint herein, together with an affidavit that the defendant Harry Negley is not a resident of the State of Indiana.

Notice is therefore hereby given said defendant, that unless he be and appear on the 15th day of May, 1919, at the Court House in Rushville in said County and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

In witness whereof, I hereunto set my hand and affix the Seal of said Court, at Rushville, this 20th day of March, A. D. 1919.

ORDINANCE NO. 326. An ordinance fixing the time during which watchmen stationed at street crossings in the City of Rushville, Indiana, by the Cincinnati, Chicago and St. Louis Railroad for the United States Railroad Administration shall attend to their duties.

ORDINANCE NO. 324.

An ordinance requiring the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad to erect and maintain automatic crossing alarm bells at the intersection of its tracks on each of the following streets, to-wit: Third street, Jackson street, Fifth street, Harrison street, Seventh street, Main street, Eighth street and Perkins street.

Section No. 2.—Section one of Ordinance No. 121 passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the twenty-first (21st) day of January, 1902, and Ordinance No. 163, passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the nineteenth (19th) day of September, 1905, are hereby repealed.

Section No. 3.—Any person, corporation or railroad company violating any of the provisions of this ordinance shall be fined in any sum not exceeding the sum of one hundred dollars.

Section No. 4.—This ordinance shall be in effect from and after its passage and publication as required by law.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

ORDINANCE NO. 325. An ordinance fixing the time during which watchmen stationed at street crossings in the City of Rushville, Indiana, by the Cincinnati, Indianapolis and Western Railroad Company or

Walker D. Hines, Director General of the Railroad for the United States Railroad Administration shall, attend to their duties.

Section 1.—Be it ordained by the Common Council of the City of Rushville, Indiana, that from and after the passage of this Ordinance all watchmen employed by the Cincinnati, Indianapolis & Western Railroad Company or Walker D. Hines, Director General of the Railroad for the United States Railroad Administration, now operating the Cincinnati, Indianapolis & Western Railroad, either stationed by said Company or said Director General, or heretofore ordered stationed by the Common Council of the City of Rushville, Indiana, at any street crossing in said City of Rushville, Indiana, shall be required to attend to their duties as such watchmen or flagmen from the hour of 8 a. m. until 5 p. m.

Section 2.—This ordinance shall be in force from and after its passage.

Passed by the Common Council of the City of Rushville, Indiana, on Tuesday, the 18th day of March, 1919.

FATAL DRIVE WAS BEGUN A YEAR AGO

Germany's Defeat Dated From Mar. 21, 1918 at Beginning of West Front Offensive

OUTRAN MAN POWER SUPPLY

Huns Weakened Themselves by Undertaking to Capture the Channel Ports

By J. W. T. MASON
(Written for United Press.)

New York, March 21.—Germany's irretrievable defeat in the world war began one year ago today when the army of the Hohenzollerns started their major offensive along the West front, and outran their supply of man power.

A year's perspective of Von Hindenburg's gamble shows with indubitable clearness that the German

strategy was fundamentally wrong, and by no possibility could have won the war. When the Kaiser's armies started for the channel ports, 12 months ago, they deliberately set forth to reduce their own strength, at a time when America's millions were speeding overseas to reinforce the allies.

Never in the history of warfare has a greater mistake than this been committed. Had the Germans reached the channel they would at most have succeeded in prolonging the war for a few months. They couldn't have defeated the American armies by the channel drive, because the American armies were not there. And, with the American armies in being, any success of Von Hindenburg could have remained only a temporary affair.

What Von Hindenburg did by his March offensive was to carry his battlefront so far from Germany that he could not get back. Von Hindenburg was defeated in France, somewhat after the basic manner of Napoleon's defeat in Russia. Napoleon rushed too far into the enemy's country, and so did Von Hindenburg.

The changes in methods of warfare during the intervening century made a trespass of a mile as dangerous to Von Hindenburg as a 20-mile trespass to Napoleon.

Why Von Hindenburg attempted his futile advance is a matter that concerns Germany's insane war mentality. The persistent error of the German military leaders throughout the war was their refusal to remain inactive. They had a gambler's passion for the initiative. This may be fruitful when the odds are not heavily in the enemy's favor. But it becomes suicidal when continued in the face of such odds as America's entrance into the war gave to the allies. Von Hindenburg's essential lack of genius was demonstrated by his refusal to enter upon a complete defensive immediately it became apparent, as it did last winter, that the United States intended pouring into Europe as many million troops as were needed to win the war.

Had Von Hindenburg held fast to his original Western front, he would have had between a million and a half more men at his disposal than were finally left when the American offensive began. The result would have been greatly increased allied losses, and upon Germany's ultimate surrender, a much larger salvage of German man power than now exists. But Von Hindenburg played for no middle course. The Germans had been taught to think only in terms of victory, and with that gone they had no ability to compromise their losses. Arrogance without moderating influences; offensive talents without versatility in defense—these they had in large measure. But vision and an understanding of the minds of men were far from them, and at no other time were so fatally absent as a year ago today.

MAORIS DEVELOP BIG APPETITE FOR MOVIES

Their Appetite For Them Calls For Them on Screen Rather Than Boiled Ready to Eat.

MANY FILMS BEING SHOWN

(By United Press.)
Los Angeles, Cal., March 21.—New Zealand Maoris, native Japanese and the cannibals of the south sea islands have developed a ravenous appetite for the American movie star.

Their appetite, however, doesn't crave blood. They want them on the screen. It is going to take a fourth of the 700 miles of film to be manufactured here in 1919, to satisfy this appetite, distributors estimate.

In the last few years the American movie has won its place in the far corners of the South Sea, in China, Korea and the Federated Malay States.

"The New Zealand Maoris" (who cannot read or write a word beyond their native jargon) writes Frank Boyd in a survey of the field, "insist on giving their screen favorites advice as to how to avoid impending danger. When their favorite finally triumphs, they give vent to lusty cheers."

When "Tess of the Storm Country" was played at Rotorua, Boyd was the only person in the house who could read the subtitles. But near-barbarians could read the language of the pictures and received it by standing on their chairs at the finish and cheering in their native language.

Comedy of the better variety rules a favorite in the South Seas.

Few of the inhabited corners of the South Seas and Orient are without their movie houses. The more interesting natives oftentimes are the proprietors.

WOMAN KILLS HERSELF

Crawfordsville, Ind., Mar. 20.—Three cars from a Big Four freight train were derailed here yesterday and shot through the residence occupied by the family of Ernest Shinnault. The occupants were in a side room and not injured.

Nervousness and Headaches Caused by Acid-Stomach

There is a much closer connection between the stomach and brain than most people imagine. It is because of this close connection that indigestion, belching, sour, gassy stomach and other stomach miseries—all of which are sure signs of acid stomach—are so often followed by severe attacks of blinding, splitting headaches.

Nervousness, sleeplessness, irritability, mental depression, melancholia and many other disorders which affect the brain can also nearly always be traced to the same source—acid-stomach.

So often you hear people say "I am so nervous I think I'll fly to pieces," or "It seems I never get a good night's sleep any more, my nerves are all on edge." Little do they dream that acid stomach is the direct cause of their troubles because very often there are no pains in the stomach at all. So you see, you can't always judge an acid-stomach condition by the way your stomach, itself, feels.

If you are weak, nervous, unfit—if you are not up to your old time form—if you lack your accustomed enthusiasm, energy and pep—make this test and see if it isn't acid-stomach that is holding you back—robbing you of your health, strength and vigor. Get a big box of EATONIC—the wonderful modern medicine that so quickly puts an acid stomach to rights. It is in the form of pleasant tasting tablets that you eat like a bit of candy. EATONIC rids the stomach of excess

acid. Brings instant relief from indigestion, heartburn, sour belching, food repeating, bloating and gas and makes the stomach cool, pure, sweet and comfortable.

Dentists warn us against the bad effects of acid mouth, pointing out that the acid eats through the enamel of the teeth, causing them to decay. You can easily imagine then the amount of damage excess acid will cause to the delicate organization of the stomach!

Thousands of people are using EATONIC and the results obtained are so remarkable as to be almost unbelievable. Yet their letters of gratitude, many of which are received daily, prove absolutely that EATONIC does all and even more than we claim. The medical profession, too, recognizes the great value of this wonderful remedy. A learned Michigan doctor wrote recently: "I have had much wonderful success with EATONIC that I was every one to know how quickly it will neutralize the acidity of the stomach (acid-stomach) and the stomach will soon be sweet and normal again, and the sick man well and happy once more."

So be sure to get a big box of EATONIC from your druggist today. If it fails in any way to give you the kind of satisfaction you want, take it back—he will refund your money. He doesn't want one penny of your money unless EATONIC helps you.

EATONIC
FOR YOUR ACID-STOMACH

"We're As Near As The Nearest Telephone."

The Flower Phone

While we are always glad to have our patrons call and select their own flowers and which a great many people do, yet, most of our orders are by the convenient way of the telephone. It is near, quick and reliable and by ordering HERE you are sure to get what you order and bearing the highest quality of distinction. I will not sell you a high grade of price and a low grade quality of flowers.

Do not hesitate if you find it inconvenient to come, just phone. We are rounding out our twenty-fifth year in Rushville now and we have a host of friends for many miles in every direction to thank for same. One must be on the square and remain that long. But come to look and feast your eyes from now on. Our place is always worth walking to see.

Begin to announce that we are official members of the Florists Telegraphic Delivery. Flowers telegraphed to any part of the United States and Canada within a few hours.

PLANS RESUMPTION COMMERCIAL WARFARE

German Business Prepares to Take up Trade Fight When Allied Blockade is Lifted

GOVERNMENT WILL ASSIST

(By United Press.)

Washington, March 21.—German business plans the resumption of commerce warfare immediately upon removal of the allied blockade, official advices from Stockholm to the bureau of foreign and domestic commerce announced today.

German boards of trade are urging upon their members the importance of making German goods of such quality and prices as cannot be extolled by any foreign manufacture, it was announced.

Money has been set aside by the Prussian government for financial trade and scientific expeditions abroad.

Why be satisfied with a single crop? It is possible to grow two or three crops of some vegetables in one season.
